

achievements, and public acceptance; the CSO awards category has one sub-category which recognizes municipal programs; and the SW awards category has two sub-categories which recognize municipal and industrial programs. All nominees are screened for environmental compliance by the States and EPA. Municipalities and institutions desiring to be considered for National awards voluntarily complete the questionnaires and provide design and operating information about their facility or programs. The award nominations are reviewed by State/Regional officials prior to forwarding them for National award consideration. At the National level, award reviews involve Federal officials and review panels comprised of representatives of EPA, State water pollution control agencies and affiliated associations.

*The EPA would like to solicit comments to:*

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Burden Statement:** The information is collected from approximately 200 respondents at a total cost of \$89,600 per year and 2800 burden hours, including \$52,200 and 1600 burden hours for the respondents' time, and \$37,400 and 1200 burden hours for the States' review time. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of

information; search data sources; complete and review the collection of information; and transmit or otherwise disclose information.
