6. *State Mental Institution Policy Review—20 CFR, Subpart U, 404.2001–2065, Subpart F, 416.601–416.665—0960–0110.* The Social Security Act provides that the Commissioner of Social Security shall establish a system of accountability monitoring for institutions in each state that serve as a representative payee for recipients of Social Security and SSI benefits. As part of this accountability process, SSA collects information on Form SSA–9584 to determine whether the institutions' policies and practices conform to SSA's regulations on the use of benefits and whether the institution is performing other duties and responsibilities required of a representative payee. The information also provides a basis for conducting an onsite review of the institution and is used in the preparation of the subsequent report of findings. The respondents are state mental institutions that serve as representative payees.

9. *Social Security Disability Report—20 CFR 404.1512 & 416.912–0960.* The Social Security Act requires applicants to furnish medical, work history and other evidence or information to prove they are disabled. The information on the Adult Disability Report, together with other evidence and information, will be used by State Disability Determination Services (DDS) to develop medical evidence, assess the alleged disability, and make a determination on whether or not the applicant is disabled under the Act. DDSs are State agencies that make disability determinations on behalf of SSA. In addition to the traditional paper application, claimants for disability benefits will have the option to complete the Disability Report through the Internet (i3368) or in an interview format with an SSA representative at an SSA field office using the Electronic Disability Collect System (EDCS). Both the i3368 and EDCS formats collect the same information as that contained on the paper SSA–3368, but include enhancements to guide the claimant or interviewer through the application process. For example, the i3368 provides applicants with self-help screens and propagates certain information. Both the i3368 and EDCS applications will, when needed, collect additional information on a claimant's work history. In the paper-based process, however, additional work history information is collected through another form, the SSA–3369, OMB No. 0960–0578. The respondents are applicants for title II and title XVI disability benefits.
