

3. We find that the public interest does not weigh in favor of a grant here. Rather, we find that extending the comment deadline would contravene the Commission's express intention to proceed expeditiously in this rulemaking proceeding. First, we do not agree that a Commission decision regarding whether to revise the Big LEO band plan must necessarily be affected by the amount of second generation spectrum available to GLP in the 2 GHz MSS band. We expect any decision the Commission may make regarding whether to revise the Big LEO band plan will be made based on the operations and use of systems in the Big LEO band. We do not believe that resolution of 2 GHz MSS licensing matters will have any bearing on whether or how the Commission may decide to alter the Big LEO band plan. In any event, it is not necessary for the Commission to reach a decision on GLP's appeal for parties to provide comments in this proceeding concerning how favorable or unfavorable Commission action with respect to GLP's appeal might affect GLP's spectrum needs in the Big LEO band.

4. Second, we do not agree that a Commission decision regarding the proposed ICO/GLP transaction is necessary for parties to comment meaningfully in this proceeding. Whether or not the Commission ultimately approves the transaction has no bearing on current operations, use, or capacity of the Globalstar Big LEO MSS system. Moreover, nothing prohibits ICO, as proposed new owners of the Globalstar Big LEO MSS system, from filing comments in this proceeding. We are not convinced that ICO requires resolution of its pending transfer and assignment applications to understand its interests and comment meaningfully in this proceeding.

5. Nevertheless, because of the operation of § 1.46 of the Commissions rules, which automatically extends the time for filing comments until two business days after the Commission denies a timely-filed motion for extension of time, we adjusted the comment date to July 11, 2003. Also, to provide parties a full two weeks to respond to comments filed in this proceeding, we adjusted the reply comment date to July 25, 2003.

6. Accordingly, pursuant to § 1.46 of the Commission's rules, 47 CFR 1.46, the new comment due date was July 11, 2003 and the new reply comment due date was July 25, 2003. Instructions for filing pleadings in this proceeding are set forth in the NPRM, available on the Commission's Web site at <http://www.fcc.gov>. All comments and reply

comments will be available for public inspection during regular business hours in the FCC Reference Information Center, Room CY-A257, 445 Twelfth Street SW., Washington, DC 20554.
