**Fisheries Off West Coast States and in
the Western Pacific; West Coast
Salmon Fisheries; Inseason Action #2
- Adjustment of the Recreational
Fishery from the Queets River to Cape

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Adjustment; request for comments.

SUMMARY: NMFS announces that the recreational fishery in the area from the Queets River to Cape Falcon, Oregon, was modified to open 7 days per week effective on Friday, July 26, 2003. On July 18, 2003, the Northwest Regional Administrator, NMFS (Regional Administrator), determined that available catch and effort data indicated that increasing the days open was warranted. This action was necessary to conform to the 2003 management goals.

DATES: Adjustment in the area from the Queets River to Cape Falcon, Oregon, effective 0001 hours local time (l.t.), July 26, 2003 through September 30, 2003. Comments will be accepted through September 3, 2003.

SUPPLEMENTARY INFORMATION: The Regional Administrator modified the season for the recreational fishery in the area from the Queets River to Cape Falcon to be open 7 days per week effective Friday, July 26, 2003. On July 18 the Regional Administrator determined that available catch and effort data indicated that increasing the days open was warranted. Modification of recreational fishing days per calendar week are authorized by regulations at 50 CFR 660.409(b)(1)(iii).

In the 2003 annual management measures for ocean salmon fisheries (68 FR 23913, May 6, 2003), NMFS announced the recreational fishery in the area from the Queets River to Leadbetter Point, WA (Westport Area) would open June 22 through the earlier of September 14 or a 83,250 coho subarea quota with a subarea guideline of 40,600 chinook, and the area from Leadbetter Point, WA to Cape Falcon (Columbia River Area) would open June 29 through the earlier of September 30 or a 112,500 coho subarea quota with a subarea guideline of 12,700 chinook. Both the Westport and Columbia subareas were scheduled to open Sunday through Thursday during each calendar week.

On July 18, 2003, the Regional Administrator consulted with representatives of the Pacific Fishery Management Council, Washington Department of Fish and Wildlife, and Oregon Department of Fish and Wildlife by conference call. Information related to catch to date, the chinook and coho catch rate, and effort data indicated that it was unlikely that the coho quotas or the overall recreational chinook quota north of Cape Falcon would be met. As a result, the states recommended, and the Regional Administrator concurred, that both the Westport and Columbia recreational fishery subareas, which include the area from the Queets River to Cape Falcon, be modified to be open 7 days per week effective Friday, July 26, 2003. All other restrictions that apply to this fishery remain in effect as announced in the 2003 annual management measures.

The Regional Administrator determined that the best available information indicated that the catch and effort data, and projections, supported the above inseason action recommended by the states. The states manage the fisheries in state waters adjacent to the areas of the U.S. exclusive economic zone in accordance with this Federal
