

year as consisting of more than such class's proportionate share of particular types of income, such as capital gains. Consequently, applicants state that any payments of long-term capital gains to holders of common stock require proportionate allocations of such long-term capital gains to the preferred stock, which can be extremely difficult to do.

3. Applicants submit that one of the concerns leading to the enactment of section 19(b) and the adoption of the rule was that shareholders might be unable to distinguish between frequent distributions of capital gains and dividends from net investment income. Applicants state that the proposed Distribution Policies, including the fact that the distributions called for by the policies may include returns of capital to the extent that a Fund's net investment income and net capital gains are insufficient to meet the fixed dividend, will be fully described in the Funds' periodic communications to their shareholders, including the periodic report to shareholders following the institution of any such policy. Applicants state that, in accordance with rule 19a-1 under the Act, a statement showing the source or sources of the distribution would accompany each distribution (or the confirmation of the reinvestment thereof under a Fund's common stock distribution reinvestment plan). Applicants state that, for both the common stock and the preferred stock, the amount and sources of distributions received during the calendar year will be included on each Fund's IRS Form 1099-DIV reports of distributions during the year, which will be sent to each shareholder who received distributions (including shareholders who have sold shares during the year). Applicants state that this information, on an aggregate basis, also will be included in each Fund's annual report to shareholders.

4. Another concern underlying section 19(b) and rule 19b-1 is that frequent capital gains distributions could facilitate improper distribution practices, including, in particular, the practice of urging an investor to purchase fund shares on the basis of an upcoming distribution ("selling the dividend") where the dividend results in an immediate corresponding reduction in NAV and would be, in effect, a return of the investor's capital. Applicants submit that this concern does not apply to closed-end investment companies, such as the Funds, which do not continuously distribute their shares. Applicants also assert that by paying out periodically any capital gains that have occurred, at least up to the fixed

periodic payout amount, the Funds' Distribution Policies help avoid the buildup of end-of-the-year distributions and accordingly help avoid the scenario in which an investor acquires shares in the open market that are subject to a large upcoming capital gains dividend. Applicants also state that the "selling the dividend" concern is not applicable to preferred stock, which entitles a holder to a specific periodic dividend and, like a debt security, is initially sold at a price based on its liquidation preference, credit quality, dividend rate and frequency of payment. In addition, applicants state that any rights offering will be timed so that shares issuable upon exercise of the rights will be issued only in the 15-day period immediately following the record date for the declaration of a monthly dividend, or in the six-week period immediately following the record date of a quarterly dividend. Thus, applicants state that, in a rights offering, the abuse of selling the dividend could not occur as a matter of timing. Any rights offering also will comply with all relevant Commission and staff guidelines. In determining compliance with these guidelines, a Fund's Board will consider, among other things, the brokerage commissions that would be paid in connection with the offering. Any offering by a Fund of transferable rights will comply with any applicable National Association of Securities Dealers, Inc. rules regarding the fairness of compensation.

5. Section 6(c) of the Act provides that the Commission may exempt any person, security or transaction or class or classes of any persons, securities or transactions from any provision of the Act, or from any rule thereunder, if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. For the reasons stated above, applicants believe that the requested relief satisfies this standard.

Applicants' Conditions

Applicants agree that the order granting the requested relief with respect to the Funds' common stock shall terminate with respect to a Fund upon the effective date of a registration statement under the Securities Act of 1933, as amended, for any future public offering of common stock of the Fund after the date of the requested order and after the Fund's initial public offering other than:

(i) A rights offering to shareholders of such Fund, provided that (a) shares are issued only within the 15-day period

immediately following the record date of a monthly dividend, or within the six-week period following the record date of a quarterly dividend; (b) the prospectus for such rights offering makes it clear that common shareholders exercising rights will not be entitled to receive such dividend with respect to shares issued pursuant to such rights offering; and (c) such Fund has not engaged in more than one rights offering during any given calendar year; or

(ii) An offering in connection with a merger, consolidation, acquisition, spin-off or reorganization; unless the Fund has received from the staff of the Commission written assurance that the order will remain in effect.

Deputy Secretary.
