

Department of Environment and Natural Resources (NC DENR) requested approval to implement and enforce State permit terms and conditions that substitute for the National Emission Standards for Hazardous Air Pollutants from the Pulp and Paper Industry and the National Emission Standards for Hazardous Air Pollutants for Chemical Recovery Combustion Sources at Kraft, Soda, Sulfite and Stand-Alone Semi-chemical Pulp Mills. In the Rules section of this **Federal Register**, EPA is granting NC DENR the authority to implement and enforce alternative requirements in the form of title V permit terms and conditions after EPA has approved the state's alternative requirements. A detailed rationale for this approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

40 CFR Part 300

[FRL-7549-4]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent for partial deletion of the Rocky Mountain Arsenal National Priorities List Site from the National Priorities List; extension of public comment periods.

SUMMARY: The Environmental Protection Agency (EPA) Region 8 announced its intent to delete the Selected Perimeter Area (SPA, 68 FR 44259) and the Surface Deletion Area (SDA, 68 FR 44265) of the Rocky Mountain Arsenal National Priorities List Site (RMA/NPL Site) On-Post Operable Unit (OU) from the National Priorities List (NPL) on July 28, 2003. Both 30-day public comment periods are scheduled to end on August 26, 2003. EPA has received a written request to extend these public comment periods. In response, EPA is extending both public comment periods for an additional 30 days concluding on September 25, 2003.

The NPL constitutes appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

EPA bases its proposal to delete the SPA and SDA portions of the RMA/NPL Site on the determination by EPA and the State of Colorado, through the Colorado Department of Public Health and Environment (CDPHE), that all appropriate actions under CERCLA have been implemented to protect human health, welfare, and the environment and that no further response action by responsible parties is appropriate.

The partial deletions pertain only to the SPA and SDA of the On-Post OU of the RMA/NPL Site and do not include the Off-Post OU or the rest of the On-Post OU. The Off-Post OU and rest of the On-Post OU will remain on the NPL and response activities will continue at those OUs.

DATES: Comments concerning the proposed partial deletions may be submitted to EPA on or before September 25, 2003.

ADDRESSES: Comments may be mailed to: Catherine Roberts, Community Involvement Coordinator (8OC), U.S. EPA, Region 8, 999 18th Street, Suite 300, Denver, Colorado, 80202-2466, 1-800-227-8917 or (303) 312-6025.

Comprehensive information on the RMA/NPL Site, as well as information specific to both proposed partial deletions, is available through EPA's Region 8 Superfund Records Center in Denver, Colorado. Documents are available for viewing by appointment from 8 a.m. to 4 p.m., Monday through Friday excluding holidays by calling (303) 312-6473. The Administrative Record for the RMA/NPL Site and the Deletion Dockets for these partial deletions are maintained at the Joint Administrative Records Document Facility, Building 129, Room 2024, Commerce City, Colorado 80022-1748, (303) 289-0362.
