

Paperwork Reduction Act

This proposed rule does not contain new or revised information collection for which OMB approval is required under the Paperwork Reduction Act. Information collection associated with this proposed rule is covered by existing OMB approval Nos. 1018-0022 (expires 4/30/2004), 1018-0094 (expires 7/31/2004), 1018-0093 (expires 3/31/2004), and 1018-0092 (expires 7/31/2004). The Service may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

National Environmental Policy Act

We have determined that this rule is categorically excluded under the Department's NEPA procedures in 516 DM 2, Appendix 1.10.

Government-to-Government Relationship With Tribes

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments" (59 FR 22951), Executive Order 13175, and 512 DM 2, this rule will have no effect on federally recognized Indian tribes.

Energy Supply, Distribution or Use (E.O. 13211)

On May 18, 2001, the President issued an Executive Order addressing regulations that affect energy supply, distribution, and use. E.O. 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. Because this rule is only updating the fee schedule for permit application review and issuance, it is not a significant regulatory action under Executive Order 12866 and is not expected to significantly affect energy supplies, distribution, and use. Therefore, this action is not a significant energy action, and no Statement of Energy Effects is required.

Clarity of Regulations

Executive Order 12866 requires each agency to write regulations that are easy to understand. We invite your comments on how to make this rule easier to understand, including answers to questions such as the following: (1) Are the requirements in the rule clearly stated? (2) Does the rule contain technical language or jargon that interferes with its clarity? (3) Does the format of the rule (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce its clarity? (4) Would the rule be easier to understand if it were divided into more

(but shorter) sections? (5) Is the description of the rule in the "Supplementary Information" section of the preamble helpful in understanding the proposed rule? What else could we do to make the rule easier to understand?

Send a copy of any comments about how we could make this rule easier to understand to: Office of Regulatory Affairs, Department of the Interior, Room 7229, 1849 C Street, NW., Washington, DC 20240.
