Title: Regional Inspection Point Listing Forms.

OMB Control Number: 2130–0551.

Abstract: Through a direct comparison of inspection data with accident/incident data, the collection of information aims to develop a profile county-by-county of what there is to

inspect, and how much inspection activity was done by Federal and State railroad inspectors each year nationwide. The information collected will produce “snapshots” which will allow FRA to determine where the gaps are in inspection territories so that it can focus inspection resources where they will do the most good. As a result of the collection of information, FRA will be better able to equalize inspector workloads, and will be better able to

make informed hiring decisions regarding the most effective placement of new inspectors. More targeted inspections will permit FRA to maximize its limited resources, and will serve to enhance overall safety on the nation's rail system.
