

contain only quotations of such broker or dealer.

(5) *Discretion to determine that an exchange does not qualify as an established securities market.* The Commissioner may determine that a securities exchange that otherwise meets the requirements of paragraph (b) of this section does not qualify as an established securities market, if—

(i) The exchange does not have adequate listing, financial disclosure, or trading requirements (or does not adequately enforce such requirements); or

(ii) There is not clear and convincing evidence that the exchange ensures the active trading of listed stocks.

(c) *Primarily traded.* For purposes of this section, stock of a corporation is primarily traded in a country on one or more established securities markets, as defined in paragraph (b) of this section, if, with respect to each class of stock described in paragraph (d)(1)(i) of this section (relating to classes of stock relied on to meet the regularly traded test)—

(1) The number of shares in each such class that are traded during the taxable year on all established securities markets in that country exceeds.

(2) The number of shares in each such class that are traded during that year on established securities markets in any other single country.

(d) *Regularly traded*—(1) *General rule.* For purposes of this section, stock of a corporation is regularly traded on one or more established securities markets, as defined in paragraph (b) of this section, if—

(i) One or more classes of stock of the corporation that, in the aggregate, represent more than 50 percent of the total combined voting power of all classes of stock of such corporation entitled to vote and of the total value of the stock of such corporation are listed on such market or markets during the taxable year; and

(ii) With respect to each class relied on to meet the more than 50 percent requirement of paragraph (d)(1)(i) of this section—

(A) Trades in each such class are effected, other than in *de minimis* quantities, on such market or markets on at least 60 days during the taxable year (or $\frac{1}{6}$ of the number of days in a short taxable year); and

(B) The aggregate number of shares in each such class that are traded on such market or markets during the taxable year are at least 10 percent of the average number of shares outstanding in that class during the taxable year (or, in the case of a short taxable year, a percentage that equals at least 10

percent of the average number of shares outstanding in that class during the taxable year multiplied by the number of days in the short taxable year, divided by 365).

(2) *Classes of stock traded on a domestic established securities market treated as meeting trading requirements.* A class of stock that is traded during the taxable year on an established securities market located in the United States shall be considered to meet the trading requirements of paragraph (d)(1)(ii) of this section if the stock is regularly quoted by dealers making a market in the stock. A dealer makes a market in a stock only if the dealer regularly and actively offers to, and in fact does, purchase the stock from, and sell the stock to, customers who are not related persons (as defined in section 954(d)(3)) with respect to the dealer in the ordinary course of a trade or business.

(3) *Closely-held classes of stock not treated as meeting trading requirements*—(i) *General rule.* Except as provided in paragraph (d)(3)(ii) of this section, a class of stock of a foreign corporation that otherwise meets the requirements of paragraph (d)(1) or (2) of this section shall not be treated as meeting such requirements for a taxable year if, for more than half the number of days during the taxable year, one or more persons who own at least 5 percent of the vote and value of the outstanding shares of the class of stock, as determined under paragraph (d)(3)(iii) of this section (each a 5-percent shareholder), own, in the aggregate, 50 percent or more of the vote and value of the outstanding shares of the class of stock. If one or more 5-percent shareholders own, in the aggregate, 50 percent or more of the vote and value of the outstanding shares of the class of stock, such shares held by the 5-percent shareholders will constitute a closely-held block of stock.

(ii) *Exception.* Paragraph (d)(3)(i) of this section shall not apply to a class of stock if the foreign corporation can establish that qualified shareholders, as defined in § 1.883-4(b), applying the attribution rules of § 1.883-4(c), own sufficient shares in the closely-held block of stock to preclude nonqualified shareholders in the closely-held block of stock from owning 50 percent or more of the total value of the class of stock of which the closely-held block is a part for more than half the number of days during the taxable year. Any shares that are owned, after application of the attribution rules in § 1.883-4(c), by a qualified shareholder shall not also be treated as owned by a nonqualified shareholder in the chain of ownership for purposes of the preceding sentence.

A foreign corporation must obtain the documentation described in § 1.883-4(d) from the qualified shareholders relied upon to satisfy this exception. However, no person shall be treated for purposes of this paragraph (d)(3) as a qualified shareholder if such person holds an interest in the class of stock directly or indirectly through bearer shares.

(iii) *Five-percent shareholders*—(A) *Related persons.* Solely for purposes of determining whether a person is a 5-percent shareholder, persons related within the meaning of section 267(b) shall be treated as one person. In determining whether two or more corporations are members of the same controlled group under section 267(b)(3), a person is considered to own stock owned directly by such person, stock owned through the application of section 1563(e)(1), and stock owned through the application of section 267(c). In determining whether a corporation is related to a partnership under section 267(b)(10), a person is considered to own the partnership interest owned directly by such person and the partnership interest owned through the application of section 267(e)(3).

(B) *Investment companies.* For purposes of this paragraph (d)(3), an investment company registered under the Investment Company Act of 1940, as amended (54 Stat. 789), shall not be treated as a 5-percent shareholder.

(4) *Anti-abuse rule.* Trades between or among related persons described in section 267(b), as modified by paragraph (d)(3)(iii) of this section, and trades conducted in order to meet the requirements of paragraph (d)(1) of this section shall be disregarded. A class of stock shall not be treated as meeting the trading requirements of paragraph (d)(1) of this section if there is a pattern of trades conducted to meet the requirements of that paragraph. For example, trades between two persons that occur several times during the taxable year may be treated as an arrangement or a pattern of trades conducted to meet the trading requirements of paragraph (d)(1)(ii) of this section.

(5) *Example.* The closely-held test in paragraph (d)(3) of this section is illustrated by the following example:

Example. Closely-held exception—(i) *Facts.* X is a foreign corporation organized in a qualified foreign country and engaged in the international operation of ships. X has one class of stock, which is primarily traded on an established securities market in the qualified foreign country. The stock of X meets the regularly traded requirements of paragraph (d)(1)(ii) of this section without
