[FRL-7479-3]

Oklahoma: Incorporation by Reference of Approved State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Immediate final rule.

SUMMARY: The Resource Conservation and Recovery Act (RCRA) allows the Environmental Protection Agency (EPA) to authorize States to operate their hazardous waste management programs in lieu of the Federal program. EPA uses the regulations entitled "Approved State Hazardous Waste Management Programs" to provide notice of the authorization status of State programs and to incorporate by reference those provisions of the State statutes and regulations that will be subject to EPA's inspection and enforcement. The rule codifies in the regulations the prior approval of Oklahoma's hazardous waste management program and incorporates by reference authorized provisions of the State's statutes and regulations. In addition, today's document corrects technical errors

made in the table of authorities published in previous authorization **Federal Register** notices for Oklahoma.

DATES: This regulation is effective October 27, 2003, unless EPA receives adverse written comment on this regulation by the close of business September 26, 2003. If EPA receives such comments, it will publish a timely withdrawal of this immediate final rule in the **Federal Register** informing the public that this rule will not take effect. The incorporation by reference of authorized provisions in the Oklahoma statutes and regulations contained in this rule is approved by the Director of the Federal Register as of October 27, 2003 in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.
