

93.404(a), 93.407, 93.408, and 93.412 are met.

§ 93.404 [Amended]

5. In § 93.404, paragraph (a)(1) would be amended by adding the words “the name and address of the quarantine facility, if the ruminants are to be quarantined at a privately owned quarantine facility;” after the words “and the port of entry in the United States;”.

6. In § 93.412, paragraphs (a) and (c) would be revised and a new paragraph (d) would be added to read as follows:

§ 93.412 Ruminant quarantine facilities.

(a) *Privately owned quarantine facilities.* The operator of a privately owned medium or minimum security quarantine facility subject to the regulations in this subpart shall arrange for acceptable transportation from the port to the privately owned quarantine facility and for the care, feeding, and handling of the ruminants from the time of unloading at the port to the time of release from the quarantine facility. Such arrangements shall be agreed to in advance by the Administrator. All expenses related to these activities shall be the responsibility of the operator. The privately owned quarantine facility must be suitable for the quarantine of the ruminants and must be approved by the Administrator prior to the issuance of any import permit. The facilities occupied by the ruminants should be kept clean and sanitary to the satisfaction of the APHIS representatives. If for any cause, the care, feeding, or handling of ruminants, or the sanitation of the facilities is neglected, in the opinion of the overseeing APHIS representative, such services may be furnished by APHIS in the same manner as though arrangements had been made for such services as provided by paragraph (b) of this section, and/or the ruminants may be disposed of as the Administrator may direct, including through their sale in accordance with the procedure described in paragraph (b) of this section. The operator must request in writing inspection and other services as may be required, and shall waive all claims against the United States and APHIS or any employee of APHIS for damages which may arise from such services. The Administrator may prescribe reasonable rates for the services provided under this paragraph. When APHIS finds it necessary to extend the usual minimum quarantine period, APHIS shall advise the operator in writing, and the operator must pay for such additional quarantine and other services required. The operator must

pay for all services received in connection with each separate lot of ruminants by certified check or U.S. money order prior to release of the ruminants. If such payment is not made, the ruminants may be sold in accordance with the procedure described in paragraph (b) of this section, or otherwise disposed of as directed by the Administrator.

* * * * *

(c) APHIS collection of payments from the importer, or his or her agent, or the operator, for service rendered shall be deposited so as to be available for defraying the expenses involved in this service.

(d) *Standards for privately owned quarantine facilities for ruminants.*—(1) *APHIS approval of facilities.*—(i) *Approval procedures.* Persons seeking APHIS approval of a privately owned medium or minimum security quarantine facility for ruminants must make written application to the Administrator, c/o National Center for Import and Export, Veterinary Services, APHIS, 4700 River Road, Unit 38, Riverdale, MD 20737–1231. The application must include the full name and mailing address of the applicant; the location and street address of the facility for which approval is sought; blueprints of the facility; a description of the financial resources available for construction, operation and maintenance of the facility; copies of all approved State permits for construction and operation of the facility (but not local building permits), as well as copies of all approved Federal, State, and local environmental permits; the anticipated source(s) or origin(s) of ruminants to be quarantined, as well as the expected size and frequency of shipments, and a contingency plan for the possible destruction and disposal of all ruminants capable of being held in the facility.

(A) If APHIS determines that an application is complete and merits further consideration, the person applying for facility approval must agree to pay the costs of all APHIS services associated with APHIS' evaluation of the application and facility. APHIS charges for evaluation services at hourly rates are listed in § 130.30 of this chapter. If the facility is approved by APHIS, the operator must enter into a compliance agreement in accordance with paragraph (d)(2) of this section.

(B) Requests for approval must be submitted at least 120 days prior to the date of application for local building permits. Requests for approval will be evaluated on a first-come, first-served basis.

(ii) *Criteria for approval.* Before a facility may be built to operate as a privately owned medium or minimum security quarantine facility for ruminants, it must be approved by APHIS. To be approved:

(A) APHIS must find, based on an environmental assessment, and based on any required Federal, State, and local environmental permits or evaluations secured by the operator and copies of which are provided to APHIS, that the operation of the facility will not have significant environmental effects;

(B) The facility must meet all the requirements of paragraph (d) of this section;

(C) The facility must meet any additional requirements that may be imposed by the Administrator in each specific case, as specified in the compliance agreement required under paragraph (d)(2) of this section, to ensure that the quarantine of ruminants in the facility will be adequate to enable determination of their health status, as well as to prevent the transmission of livestock diseases into, within, and from the facility; and

(D) The Administrator must determine whether sufficient personnel, including one or more APHIS veterinarians and other professional, technical, and support personnel, are available to serve as APHIS representatives at the facility and provide continuous oversight and other technical services to ensure the biological security of the facility, if approved. APHIS will assign personnel to facilities requesting approval in the order that the facilities meet all of the criteria for approval. The Administrator has sole discretion on the number of APHIS personnel to be assigned to the facility.

(iii) *Maintaining approval.* To maintain APHIS approval, the operator must continue to comply with all the requirements of paragraph (d) of this section as well as the terms of the compliance agreement executed in accordance with paragraph (d)(2) of this section.

(iv) *Withdrawal or denial of approval.* Approval of a proposed privately owned medium or minimum security quarantine facility may be denied or approval of a facility already in operation may be withdrawn at any time by the Administrator for any of the reasons provided in paragraph (d)(1)(iv)(C) of this section.

(A) Before facility approval is denied or withdrawn, APHIS will inform the operator of the proposed or existing facility and include the reasons for the proposed action. If there is a conflict as to any material fact, APHIS will afford
