

previously reviewed or investigated companies that have separate rates, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (2) the cash deposit rate for all other PRC exporters will be 128.94 percent; and (3) the cash deposit rate for non-PRC exporters will be the rate applicable to the PRC exporter that supplied that exporter.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

#### Assessment

The Department will determine, and the U.S. Bureau of Customs and Border Protection (BCBP) will assess, antidumping duties on all entries of subject merchandise in accordance with these final results. The Department will issue the appropriate assessment instructions directly to the BCBP within 15 days of publication of these final results of review. The Department will direct the BCBP to assess the resulting assessment rate against the entered customs values of the subject merchandise on each of the entries during the review period.

#### Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

#### Administrative Protective Orders

This notice also serves as the only reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the return or destruction of proprietary information disclosed under an APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections section 751(a)(1) and 771(I)(1) of the Act.

Dated: August 18, 2003.

**Jeffrey May,**

*Acting Assistant Secretary for Import Administration.*

#### SUPPLEMENTARY INFORMATION:

##### Background:

Title V of the Trade and Development Act of 2000 (the Act) created two tariff rate quotas (TRQs), providing for temporary reductions in the import duties on limited quantities of two categories of worsted wool fabrics suitable for use in making suits, suit-type jackets, or trousers: (1) for worsted wool fabric with average fiber diameters greater than 18.5 microns (Harmonized Tariff Schedule of the United States (HTS) heading 9902.51.11); and (2) for worsted wool fabric with average fiber diameters of 18.5 microns or less (HTS heading 9902.51.12).

On August 6, 2002, President Bush signed into law the Trade Act of 2002, which includes several amendments to Title V of the Act. These include the extension of the program through 2005; the reduction of the in-quota duty rate on HTS 9902.51.12 (average fiber diameter 18.5 microns or less) from 6 percent to zero, effective for goods entered, or withdrawn from warehouse for consumption, on or after January 1, 2002; and an increase in the 2004 TRQ levels to 3,500,000 square meters for HTS 9902.51.12 and to 4,500,000 square meters for HTS 9902.51.11. These levels may be modified by the President. See 15 CFR 340.

The Act requires that the TRQs be allocated to persons who cut and sew men's and boys' worsted wool suits, suit-type jackets and trousers in the United States. On January 22, 2001 the Department published regulations establishing procedures for allocating the TRQs. 66 FR 6459, 15 CFR 335. In order to be eligible for an allocation, an
