

half hour after sunset. Nontoxic shot is required.

(s) White Mountain Apache Tribe, Fort Apache Indian Reservation, Whiteriver, Arizona (Tribal Members and Nontribal Hunters)

Band-tailed Pigeons (Wildlife Management Unit 10 and areas south of Y-70 in Wildlife Management Unit 7, only)

Season Dates: Open September 3, close September 17, 2003.

Daily Bag and Possession Limits: Three and six pigeons, respectively.

Mourning Doves (Wildlife Management Unit 10 and areas south of Y-70 in Wildlife Management Unit 7, only)

Season Dates: Open September 3, close September 17, 2003.

Daily Bag and Possession Limits: 10 and 20 doves, respectively.

General Conditions: All nontribal hunters hunting band-tailed pigeons and mourning doves on Reservation lands shall have in their possession a valid White Mountain Apache Daily or Yearly Small Game Permit. In addition to a small game permit, all nontribal hunters hunting band-tailed pigeons must have in their possession a White Mountain Special Band-tailed Pigeon Permit. Other special regulations established by the White Mountain Apache Tribe apply on the reservation. Tribal and nontribal hunters will comply with all basic Federal migratory bird hunting regulations in 50 CFR Part 20 regarding shooting hours and manner of taking.

Dated: August 22, 2003.

Craig Manson,

Assistant Secretary for Fish and Wildlife and Parks.

[Docket No. 021212307-3037-02; I.D. 081503B]

Fisheries of the Exclusive Economic Zone off Alaska; Reallocation of Pollock in the Bering Sea Subarea

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Reallocation.

SUMMARY: NMFS is reallocating projected unused amounts of Bering Sea subarea (BS) pollock from the incidental catch account to the directed fisheries. This action is necessary to allow the 2003 total allowable catch (TAC) of pollock to be harvested.

DATES: Effective August 26, 2003, until 2400 hrs, A.l.t., December 31, 2003.

FOR FURTHER INFORMATION CONTACT: Andrew Smoker, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In accordance with § 679.20(a)(5)(i)(A)(1) and the American Fisheries Act (AFA) (Public Law 105-277, Division C, Title II), NMFS specified a pollock incidental catch allowance equal to 3.5 percent of the pollock total allowable catch after subtraction of the ten percent Community Development Quota reserve

in the final 2003 harvest specifications for groundfish in the BSAI (68 FR 9907, March 3, 2003).

As of August 6, 2003, the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that approximately 21,887 metric tons (mt) of pollock remain in the incidental catch account. Based on projected harvest rates of other groundfish species and the expected incidental catch of pollock in those fisheries, the Regional Administrator has determined that 6,500 mt of pollock specified in the incidental catch account will not be necessary as incidental catch. Therefore, NMFS is apportioning the projected unused amount, 6,500 mt, of pollock from the incidental catch account to the directed fishing allowances established pursuant to § 679.20(a)(5)(i)(A). Pursuant to the pollock allocation requirements set forth in § 679.20(a)(5)(i), this transfer will increase the allocation to catcher vessels harvesting pollock for processing by the inshore component by 3,250 mt, to catcher/processors and catcher vessels harvesting pollock for processing by catcher processors in the offshore component by 2,600 mt and to catcher vessels harvesting pollock for processing by motherships in the offshore component by 650 mt. Pursuant to § 679.20(a)(5)(i)(A)(4), no less than 8.5 percent of the 2,600 mt allocated to catcher processors in the offshore component, 221 mt, will be available for harvest only by eligible catcher vessels delivering to listed catcher processors. Pursuant to § 679.20(a)(5)(i)(A)(4)(iii), an additional 13 mt or 0.5 percent of the catcher/processor sector allocation of pollock will be available to unlisted AFA catcher/processors.

Pursuant to § 679.20(a)(5)(i)(A)(3), Table 1 revises the final 2003 BS subarea allocations for the seven inshore catcher vessel pollock cooperatives that have been approved and permitted by NMFS and the open access AFA vessels for the 2003 fishing year consistent with this reallocation.

TABLE 1.—2003 BERING SEA SUBAREA INSHORE COOPERATIVE ALLOCATIONS
