

In its May 20 filing, Cove Point indicated that, as soon as the Commission approved a date for placing the import facilities in service, it would immediately file to reinstate the postreactivation rate and fuel sheets to be effective on that date. The Commission authorized the commencement of commercial operations of the import facilities in a letter order issued on August 18, 2003. To coincide with the reactivation, Cove Point respectfully requests that the Commission approve the filed tariff sheets with an August 18, 2003 effective date.
