

redeemer will receive from the New Fund (the "Redemption List"). The Creation List is identical to the list of the names and the required numbers of shares of each Deposit Security included in the current Portfolio Deposit.<sup>20</sup>

In addition, just as the Balancing Amount is delivered by the purchaser of Creation Unit Aggregations to the New Fund, the Trust will also deliver to the redeeming Beneficial Owner in cash the "Cash Redemption Payment." The Cash Redemption Payment on any given Business Day will be an amount calculated in the same manner as that for the Balancing Amount, although the actual amounts may differ if the Fund Securities received upon redemption are not identical to the Deposit Securities applicable for creations on the same day. To the extent that the Fund Securities have a value greater than the NAV of iShares being redeemed, a cash payment equal to the differential is required to be paid by the redeeming Beneficial Owner to the New Fund. The Trust may also make redemptions in cash in lieu of transferring one or more Fund Securities to a redeemer if the Trust determines, in its discretion, that such method is warranted due to unusual circumstances. An unusual circumstance could arise, for example, when a redeeming entity is restrained by regulation or policy from transacting in certain Fund Securities, such as the presence of such Fund Securities, on a redeeming investment banking firm's restricted list.

#### e. Clearance and Settlement

The Deposit Securities and Fund Securities of each New Fund will settle via free delivery through the Federal Reserve System for U.S. Government securities and the DTC for corporate securities and non-corporate securities (other than U.S. Government securities). The iShares will settle through the DTC. The Custodian will monitor the movement of the Deposit Securities and will instruct the movement of the iShares only upon validation that the Deposit Securities have settled correctly or that required collateral is in place.

As with the settlement of domestic ETF transactions outside of the NSCC Continuous Net Settlement System (the "CNS System"), (i) iShares of the New Funds and corporate and non-corporate securities (other than U.S. government securities) will clear and settle through DTC, and (ii) U.S. government securities

and cash will clear and settle through the Federal Reserve system. More specifically, creation transactions will settle as follows. On settlement date (T + 3) an Authorized Participant will transfer Deposit Securities that are corporate and non-corporate bonds (other than U.S. government securities) through DTC to a DTC account maintained by the New Funds' Custodian, and Deposit Securities that are U.S. government securities, together with any Balancing Amount, to the Custodian through the Federal Reserve system. Once the Custodian has verified the receipt of all of the Deposit Securities (or in the case of failed delivery of one or more bonds, collateral in the amount of 105% or more of the missing Deposit Securities) and the receipt of any Balancing Amount, the Custodian will notify the Distributor and the Advisor. The Fund will issue Creation Unit Aggregations of iShares and the Custodian will deliver the iShares to the Authorized Participant through DTC. DTC will then credit the Authorized Participant's DTC account. The clearance and settlement of redemption transactions essentially reverses the process described above. After the Trust has received a redemption request in proper form and the Authorized Participant transfers Creation Unit Aggregations of iShares to the New Funds' Custodian through DTC, the Trust will cause the Custodian to initiate procedures to transfer the requisite Fund Securities and any Cash Redemption Payment, on T + 3, assuming the Custodian has verified receipt of the Creation Unit Aggregations, the Custodian will transfer Fund Securities that are corporate and non-corporate bonds to the Authorized Participant through DTC and Fund Securities that are U.S. Government securities, together with any Cash Redemption Payment, through the Federal Reserve system.

iShares of the New Funds will be debited or credited by the Custodian directly to the DTC accounts of the Authorized Participants. With respect to domestic equity-based ETFs using the CNS System, Creation Unit Aggregations of iShares are deposited or charged to the Authorized Participants' DTC accounts through the CNS System. Since creation/redemption transactions for iShares of the New Funds will not clear and settle through the CNS System, the failed delivery of one or more Deposit Securities (on a create) or one or more Fund Securities (on a redemption) will not be facilitated by the CNS System. Therefore, Authorized Participants will be required to provide

collateral to cover the failed delivery of Deposit Securities in connection with an "in-kind" creation of iShares. In case of a failed delivery of one or more Deposit Securities, the New Funds will hold the collateral until the delivery of such Deposit Security. The New Funds will be protected from failure to receive the Deposit Securities because the Custodian will not effect the Fund's side of the transaction (the issuance of iShares) until the Custodian has received confirmation of receipt of the Authorized Participant's incoming Deposit Securities (or collateral for failed Deposit Securities) and Balancing Amount. In the case of redemption transactions, the New Funds will be protected from failure to receive Creation Unit Aggregations of iShares because the Custodian will not new effect the New Fund's side of the transaction (the delivery of Fund Securities and the Cash Redemption Payment) until the Transfer Agent has received confirmation of receipt of the Authorized Participant's incoming Creation Unit Aggregations. In order to simplify the transfer agency process and align the settlement of iShares of the New Funds with the settlement of the Deposit Securities and Fund Securities, Applicants plan to settle transactions in U.S. Government securities, corporate bonds, non-corporate bonds and iShares on the same T + 3 settlement cycle. Amex represents that according to the Application, the clearance and settlement process will not affect the arbitrage of Shares in the New Fund.<sup>21</sup>

#### f. Dividends and Distributions

Dividends from net investment income will be declared and paid to Beneficial Owners of record at least annually by each New Fund. Certain of the New Funds may pay dividends, if any, on a quarterly or more frequent basis. Distributions of realized securities gains, if any, generally will be declared and paid once a year, but each New Fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code and consistent with the 1940 Act.

Dividends and other distributions on iShares of each New Fund will be distributed on a pro rata basis to Beneficial Owners of such iShares. Dividend payments will be made through the Depository and the DTC Participants to Beneficial Owners then

<sup>20</sup> Investors redeeming Creation Unit Aggregations of the Lehman Aggregate Fund will receive cash for any Portfolio Securities that are mortgage pass-through TBAs.
