

established two dockets containing documents in support of the diazinon IRED. They are dockets OPP-34225 and OPP-2002-0251. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. What Action is the Agency Taking?

This notice announces cancellation, as requested by Syngenta, of all of Syngenta's diazinon products registered under section 3 of FIFRA. These

registrations are listed in sequence by registration number in Tables 1, 2, and 3 of this unit.

A. Background Information

Diazinon is an organophosphorous insecticide and is one of the most widely used insecticides in the U.S. It is used for outdoor non-agricultural, as well as agricultural, pest control.

Under a December 5, 2000 Memorandum of Agreement (MOA) between Syngenta Crop Protection, Inc. and EPA, Syngenta requested, under FIFRA section 6(f), that EPA cancel, effective as of June 30, 2003, the registrations of all of Syngenta's diazinon manufacturing-use products permitting formulation for outdoor non-agricultural use. In the MOA, EPA expressed that it would not contemplate permitting sale, distribution or use of existing stocks of these outdoor non-agricultural manufacturing-use products, except for return to the Registrant for purposes of re-labeling for export or disposal. In a letter dated April 8, 2003, Syngenta Crop Protection, Inc. requested a voluntary cancellation of all its remaining registrations for products containing diazinon, to be effective June 30, 2003. The request applied to outdoor non-agricultural end-use products and agricultural products. The request is contingent upon EPA's granting of certain existing stocks provisions, which are set forth in Unit V. EPA announced its receipt of the above-mentioned cancellation requests in a **Federal Register** Notice dated May 30, 2003 (68 FR 32501) (FRL-7309-2).

Syngenta's April 8, 2003 request for cancellations is consistent with the December 5, 2000 MOA. EPA has approved both the December 5, 2000 and the April 8, 2003 requests to terminate registrations for all of Syngenta's diazinon products and has published its cancellation order in this Notice. All of Syngenta's diazinon products subject to cancellation, which include outdoor non-agricultural and agricultural product registrations, are identified in Tables 1, 2, and 3 of this unit.

The Reregistration Eligibility Decision (RED) document summarizes the findings of EPA's reregistration process for individual chemical cases, and reflects the Agency's decision on risk assessment and risk management for uses of the individual pesticides known as organophosphates (OPs). EPA has issued an Interim Reregistration Eligibility Decision (IRED) document assessing the risks of exposure from agricultural uses of diazinon.

B. Requests for Voluntary Cancellations

The manufacturing-use product registrations for which cancellation was requested are identified below in Table 1. The end-use product registrations for which cancellation was requested are identified below in Tables 2 and 3. EPA did not receive any substantive comments regarding these product registrations. Accordingly, the Agency has issued an order in this notice canceling the registrations identified in Tables 1, 2, and 3.

TABLE 1.—MANUFACTURING-USE PRODUCT REGISTRATION CANCELLATION REQUESTS

Registration No.	Product Name	Chemical Name
100-977	D-z-n diazinon MG 56% WBC AG	Diazinon
100-978	D-z-n diazinon MG 22.4% WBC HG	Diazinon
100-979	D-z-n diazinon MG 87% HG	Diazinon
100-980	D-z-n diazinon MG 87% AG	Diazinon

TABLE 2.—OUTDOOR NON-AGRICULTURAL END-USE PRODUCT REGISTRATION CANCELLATION REQUESTS

Registration No.	Product Name	Chemical Name
100-456	D-z-n Lawn & Garden Insect Control	Diazinon
100-468	D-z-n Granular Lawn Insect Control	Diazinon
100-528	D-z-n 6000 Lawn & Garden Insect Control	Diazinon
100-770	D-z-n diazinon Lawn & Garden WBC	Diazinon
