DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[ATSDR-190]

Availability of the Draft Online Learning Program, Identifying Exposure Pathways, Public Comment Release

AGENCY: Agency for Toxic Substances
and Disease Registry (ATSDR),
Department of Health and Human
Services (HHS).

ACTION: Notice of availability and
request for public comment on the draft
online learning program, Identifying
Exposure Pathways.

SUMMARY: This program was developed
to provide environmental and public
health professionals information about
the ATSDR public health assessment
process through simulation and
interactive learning using the Internet.
The program provides learn-by-doing
steps on how ATSDR's cooperative
agreement partners (agents of ATSDR),
ATSDR staff, and other environmental
and public health professionals can
identify how persons come into contact
with hazardous and toxic substances.
This program is an interactive
simulation involving internal and
external communications, site
document review, mock site review,
video clip review, community
involvement activities, and completion
of an exposure pathway table.

ATSDR conducts public health
assessments to evaluate whether people
have come in contact with hazardous
substances released into the
environment and whether contact with
the substances has affected the health of
people exposed to those substances.

The process used to conduct public
health assessments includes gathering
information from community members
about how they might have come in
contact with hazardous substances
released into the environment and the
concerns they have about the effect of
the substances on their health. In
addition to information gathered from
community members, ATSDR also
evaluates environmental data pertaining
to the release, evaluates toxicologic and
epidemiologic data relevant to
exposures, and evaluates existing health
outcome data if appropriate.
Recommendations might be made to
eliminate or reduce exposure to harmful
levels of hazardous substances that have
been released into the environment. The
online learning program provides
information on the basic concepts used
by ATSDR staff and agents of ATSDR in
conducting public health assessments,
specifically how to identify pathways of
exposure.

This online learning program is
intended to assist environmental public
health professionals understand the
basic steps and coordination necessary
to identify exposure pathways. It is part
of the exposure evaluation component
of the public health assessment process.
Because interaction with the public's
environmental public health
professionals is a critical component of
the public health assessment process,
ATSDR believes that public comments
may help us improve the quality of the
program. All comments received during
the public comment period will be
considered when making improvements
to the program.

Availability: The draft online
program, Identifying Exposure
Pathways, will be available to the public
on or about August 29, 2003. The public
comment period will begin on the date
the program is first available on the

ATSDR Web site. The close of the
public comment period will be 60 days
from the date of publication and will be
indicated on the first page of the Web
site. Comments received after the close
of the public comment period will be
considered at the discretion of ATSDR
on the basis of what is deemed to be in
the best interest of the general public.

ADDRESSES: Requests for more
information about accessing the online
learning program should be sent to the
Chief, Program Evaluation, Records, and
Information Services Branch; Agency for
Toxic Substances and Disease Registry;
1600 Clifton Road, NE (MS E-56);
Atlanta, GA 30333. The online learning
program can be accessed in the
Education and Training section of the
ATSDR Home page (<http://www.atsdr.cdc.gov>).

Comments may be submitted online
through the "Feedback" section of the
program, which is accessible through a
link at the top of each page. You may
also send written comments and
supporting documents to the address
provided in the previous paragraph.
Comments should be received by the
end of the comment period. All written
comments and data submitted in
response to this notice and the draft
online learning program should bear the
docket control number ATSDR-190.

FOR FURTHER INFORMATION CONTACT:

Further information may be obtained by
contacting Bob Kay, telephone (404)
498-0382, ATSDR, 1600 Clifton Road,
NE (MS E-32), Atlanta, GA 30333, or
calling, toll free, 1-888-42-ATSDR (1-
888-422-8737). You may also reach Bob
Kay through e-mail at bkay@cdc.gov.

SUPPLEMENTARY INFORMATION: ATSDR is
mandated to conduct public health
assessments under Section 104(i) of the
Comprehensive Environmental
Response, Compensation, and Liability
Act of 1980 (CERCLA) [42 U.S.C.
9604(i)] and the Resource Conservation
and Recovery Act (RCRA) [42 U.S.C.
6939a(c)].

The general procedures for the
conduct of public health assessments
are included in the ATSDR Final Rule
on Health Assessments and Health
