

and the community. The array of services provided on-site is determined locally by school principals, school boards, parents and providers, and referral arrangements are provided for services not available on-site. No SBHC services are provided without fully informed parental consent. Each SBHC supports educational efforts by making sure that children are ready to learn through an integrated system providing continuity of care, and assuring after hours and year-round coverage. It is expected that each application submitted to serve a school-based population presents a clear focus on maintaining access to care and reducing health disparities identified in the target population. It is the intent of HRSA to continue to support health services for these populations in the areas served by these grantees. Sixteen SBHC grantees will reach the end of their project period during FY 2004.

Eligibility: Applicants are limited to currently funded programs whose project periods expire during FY 2004 and new organizations proposing to serve the same areas or populations being served by these existing programs. New organizations eligible to compete to serve one of these areas are public and nonprofit private entities, including faith-based organizations and community-based organizations.

SCHOOL BASED HEALTH CENTERS—Continued

City	State	Expiration date
San Jose	CA	6/30/2004

Review Criteria: Final review criteria are included in the application kit.

Special Considerations: Communication with program staff is essential for interested parties in deciding whether to pursue Federal funding as a HSHC. Technical assistance and detailed information about each service area, such as census tracts, can be obtained by contacting the program staff shown for each geographical area.

Estimated Amount of This Competition: \$4,000,000.

Estimated Number of Awards To Be Made: 16.

Estimated Project Period: 1–5 years.

HRSA-04-033 School Based Health Centers (SBHC)

HRSA-04-034 New Delivery Sites and New Starts in Programs Funded Under the Health Centers Consolidation Act (NDSCS)

CFDA: 93.224.

Legislative Authority: Public Health Service Act, Section 330, 42 U.S.C. 254b.

Purpose: The purpose of this activity is to support the establishment of new service delivery sites in each of the Health Center programs funded under Section 330 of the Public Health Service Act. Each application for support to establish a new site must identify a population in need of primary health care services, and propose a specific plan to increase access to care and reduce disparities identified in the population or community to be served. This activity is the lead in fulfilling the

President's multi-year Initiative to Expand Health Centers to bring much needed primary health care services to the Nation's neediest communities. In FY 2004, the establishment of new delivery sites under this program will be in the third year of a five-year initiative. The purpose of the Health Center program is to extend comprehensive primary and preventive health services (including mental health, substance abuse and oral health services) and supplemental services to populations currently without access to such services, and to improve their health status. The programs under this activity include: (1) Community Health Centers, section 330(e); (2) Migrant Health Centers, section 330(g); (3) Health Care for the Homeless program, section 330(h); (4) Public Housing Primary Care, section 330(i); and (5) School Based Health Centers, section 330. The population served by these programs are: (1) Medically underserved populations in urban and rural areas; (2) migratory and seasonal agricultural workers and their families; (3) homeless people, including children and families; (4) residents of publicly subsidized housing; and (5) medically underserved school students (K–12), their families, and medically underserved populations surrounding the school.

Eligibility: Public and nonprofit private entities, including faith-based organizations and community-based organizations, are eligible to apply.

Review Criteria: Final review criteria are included in the application kit.

Funding Preferences: In selecting applications for funding, preference will be given to approvable applications submitted from sparsely populated areas.

Special Considerations: Communities seeking support are strongly encouraged to promote and seek outside funding and are required to maximize third party revenue to establish and maintain new service delivery areas.

Estimated Amount of This

Competition: \$56,000,000.

Estimated Number of Awards To Be Made: 94.

Estimated Project Period: 3 years.

HRSA-04-034 New Delivery Sites and New Starts in Programs Funded Under the Health Centers Consolidation Act (NDSCS)
