

a consensus standard establishing guidelines for pipeline operators on development, implementation, and evaluation of public awareness programs for operating pipeline systems, API Recommended Practice (RP) 1162, "Public Awareness Programs for Pipeline Operators". The task force included representatives from gas and liquid petroleum transmission companies, local distribution companies, crude oil and gas gathering systems, and industry trade associations. Comments were also solicited from local public officials, the public and interested parties was solicited. Representatives from RSPA/OPS and the National Association of Pipeline Safety Representatives observed and provided input into the development of the standard.

API RP 1162 is currently in the final stages of the balloting process, following the guidelines of both API and the American National Standards Institute. After appropriate revisions to address comments, it is expected to be published as a national consensus standard in the fall of 2003.

RSPA/OPS considers that "public education programs," as used in the PSIA, and "public awareness programs," as used in API RP 1162, are the same. The level of public education and awareness regarding operating pipelines and pipeline safety can only be increased through education and communication programs that are demonstrated to be effective. Therefore, RSPA/OPS is considering incorporating all or portions of API RP 1162 into the pipeline safety regulations. Of particular interest to RSPA/OPS is the operator's evaluation of its program implementation and program effectiveness.

RSPA/OPS has evaluated the PSIA requirements that operators review and modify their public education programs and submit their completed programs to Secretary of Transportation. We have determined that the intent of the requirements can be met and pipeline safety be best served in the short-term by having pipeline operators complete a formal self-assessment of their public education programs against the guidelines provided in API RP 1162.

RSPA/OPS is developing an Internet-based self-assessment that operators can complete electronically. These self-assessments will help operators identify gaps in their public education programs and improvements needed to align their programs with the requirements of API RP 1162. We ask all operators to submit self-assessments of their public education programs to RSPA/OPS no later than December 17, 2003, to meet

the deadline established in the PSIA. This will ensure that operators have complied with the PSIA and will be used in targeting technical assistance workshops to ensure development of effective public education programs.

In 2004, operators will be required to submit their public education program plans to the RSPA/OPS for review. Time frames for submission will be determined by RSPA/OPS and operators will be notified. These plans will need to identify how the operators will address gaps and make improvements in their public education programs. RSPA/OPS will inspect these public education programs as an ongoing part of the pipeline operator inspection program.

RSPA/OPS is co-sponsoring with NAPS and the pipeline industry trade associations (API, INGAA, AOPL, AGA, APGA) two workshops to facilitate these operator self-assessments. The first workshop will be held on September 4–5, 2003, in Houston, TX. The second workshop will be held on September 16–17, 2003, in Baltimore, MD. On August 14, 2003, RSPA/OPS issued a notice providing specific locations and times for the public education workshops (68 FR 48659). Operators of hazardous liquid and gas transmission pipelines, gas local distribution systems and crude oil and gas gathering systems are urged to attend. Each workshop will provide an industry-facilitated review of API RP 1162 and a panel discussion of successful public education practices. RSPA/OPS will describe the self-assessment process and will facilitate sessions on techniques of effective program evaluation.

RSPA/OPS will conduct breakout sessions during these workshops for the hazardous liquid and gas transmission pipeline operators. The breakout sessions will provide a more in-depth overview of the self-assessment process and attempt to gauge the current status of public education programs for the transmission pipeline operators by completion of informal self-assessments in advance of the formal self-assessment requested by December 17, 2003.

Issued in Washington, DC on August 29, 2003.

Stacey L. Gerard,

Associate Administrator for Pipeline Safety.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Docket Nos. AB–55 (Sub–No. 639X) and AB–565 (Sub–No. 15X)]

CSX Transportation, Inc.— Discontinuance Exemption—In Henry County, IN and New York Central Lines, LLC—Discontinuance Exemption—in Henry County, IN

On August 18, 2003, New York Central Lines, LLC and CSX Transportation, Inc. (CSXT) (together petitioners), jointly filed with the Surface Transportation Board (Board) a petition under 49 U.S.C. 10502 for exemption from the provisions of 49 U.S.C. 10903 to discontinue service over a 1.64-mile line of railroad in CSXT's Western Region, Great Lakes Division, Indianapolis Line Subdivision, extending from milepost QIN 95.34 to milepost QIN 96.98, in New Castle, Henry County, IN. The line traverses U.S. Postal Service Zip Code 47632, and includes no stations.

The line does not contain Federally granted rights-of-way. Any documentation in the petitioners' possession will be made available promptly to those requesting it.

The interest of railroad employees will be protected by the conditions set forth in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979).

By issuing this notice, the Board is instituting an exemption proceeding pursuant to 49 U.S.C. 10502(b). A final decision will be issued by December 5, 2003.

Any offer of financial assistance to subsidize continued rail service under 49 CFR 1152.27(b)(2) will be due no later than 10 days after service of a decision granting the petition for exemption. Each offer must be accompanied by a \$1,100 filing fee. See 49 CFR 1002.2(f)(25).

This proceeding is exempt from environmental reporting requirements under 49 CFR 1105.6(c) and from historic reporting requirements under section 1105.8(b).¹

All filings in response to this notice must refer to STB Docket Nos. AB–55 (Sub–No. 639X) and AB–565 (Sub–No. 15X) and must be sent to: (1) Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423–0001; and (2) Natalie S. Rosenberg, 500 Water Street, J150, Jacksonville, FL 32202.

¹ In addition, because these are discontinuance proceedings and an abandonment is not proposed, trail use/rail banking and public use conditions are not appropriate.
