**SUPPLEMENTARY INFORMATION:**

Comprehensive conservation plans guide management decisions over the course of 15 years.

The Illinois River NWFR Complex includes three national wildlife refuges: Chautauqua NWR in Mason County; Meredosia NWR in Cass and Morgan Counties; and Emiquon NWR in Fulton County. The planning process began in 1998.

Three management alternatives were considered. Alternative 3, Refuge Resource Area Focus, is the preferred alternative. This alternative would increase conservation efforts in the Illinois River Focus Areas and enhance, protect and restore fish and wildlife habitat within the boundaries of the Illinois River Refuges. There will be no expansion of existing authorized boundaries.

The CCP will identify wildlife-dependent recreational opportunities available to the public, including hunting, fishing, wildlife observation and photography, and environmental education and interpretation.

### Bureau of Reclamation

#### Southern Delivery System Project, Fryingpan-Arkansas Project, Colorado

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** The Regional Water Infrastructure Authority (RWIA) is proposing to construct a pipeline and related facilities known as the Southern Delivery System (SDS) that will deliver Fryingpan-Arkansas Project (Fry-Ark) water and non-Fry-Ark water from the Arkansas River near the City of Pueblo to an area east of Colorado Springs. On February 19, 2003, RWIA and its individual participants, the cities of Colorado Springs and Fountain, along with the Security Water District, requested a long-term water conveyance contract from the Bureau of Reclamation (Reclamation). On July 14, 2003, Colorado Springs Utilities (Springs Utilities) made a request for a long-term storage contract for Pueblo Reservoir in association with this project. Because the RWIA proposal involves long-term storage and conveyance contracts from Reclamation, it has been determined that Reclamation should be the lead Federal agency for compliance with National Environmental Policy Act of 1969 (NEPA).
