[Docket No. FV03-905-2 IFR]

Oranges, Grapefruit, Tangerines, and Tangelos Grown in Florida and Imported Grapefruit; Removing All Seeded Grapefruit Regulations, Relaxation of Grade Requirements for Valencia and Other Late Type Oranges, and Removing Quality and Size Regulations on Imported Seeded Grapefruit

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This rule removes the regulations for seeded grapefruit under the Florida citrus marketing order and for seeded grapefruit imported into the United States. The order regulates the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida (order) and is administered locally by the Citrus Administration Committee (committee). The change in the import regulation is required under section 8e of the Agricultural Marketing Agreement Act of 1937. Production of seeded grapefruit in Florida has declined to the point that removing seeded grapefruit from order requirements will have no significant impact on the grapefruit market. This rule also relaxes minimum grade requirements for domestic shipments of fresh Valencia and other late type oranges the last few weeks of the season. The volume remaining at the end of the season is small and has difficulty meeting grade requirements. This rule will help maximize shipments and returns for fresh Valencia and other late type oranges.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 84 and Marketing Order No. 905, both as amended (7 CFR part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, hereinafter referred to as the "order." The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

There are no administrative procedures which must be exhausted prior to any judicial challenge to the provisions of import regulations issued under section 8e of the Act.

This rule removes the regulations for seeded grapefruit under the order for Florida citrus. Thus, handlers of seeded grapefruit are no longer subject to minimum grade, size, assessment, and reporting requirements under the order. Production has declined to the point that removing seeded grapefruit from order requirements will have no significant impact on the grapefruit market. This rule also relaxes the minimum grade requirements for domestic shipments of fresh Valencia and other late type oranges the last few weeks of the season. For the purposes of this interim final rule, the term "domestic shipments" includes shipments between the production area and any point outside thereof in the 48 contiguous States and the District of Columbia of the United States. The volume of fruit remaining at the end of the season is small and has difficulty meeting grade requirements. This rule will help the industry maximize fresh shipments and returns for Valencia and
