

18. Blue Coral agrees to the entry of the attached Order, which is incorporated herein by reference, and agrees to be bound by its terms.

19. If, after the effective date hereof, any provision of this Settlement Agreement and Order is held to be illegal, invalid, or unenforceable under present or future laws effective during the terms of the Settlement Agreement and Order, such provision shall be fully severable. The rest of the Settlement Agreement and Order shall remain in full effect, unless the Commission and Blue Coral determine that severing the provision materially affects the purpose of the Settlement Agreement and Order.

20. This Settlement Agreement and Order shall not be waived, changed, amended, modified, or otherwise altered, except in writing executed by the party against whom such amendment, modification, alteration, or waiver is sought to be enforced and approved by the Commission.

21. This Settlement Agreement may be used in interpreting the Order. Agreements, understandings, representations, or interpretations made outside of this Settlement Agreement and Order may not be used to vary or contradict its terms.

22. The provisions of this Agreement and Order shall apply to, and inure to the benefit of, Respondent, its successors and assigns, agents, representatives, and employees, directly or through any corporation, subsidiary, division or other business entity, or through any agency, device or instrumentality.

SUPPLEMENTARY INFORMATION:

Summary of Information Collected

The Department of Defense, over the past three years, has been taking requisite measures to enhance physical and information security and applying prudent countermeasures for all potential vulnerabilities focusing on security actions to address the changes in today's threat environment. The Assistant Secretary of Defense for Command, Control, Communications and Intelligence (C3I) August 12, 2000 memorandum, Subject: Department of Defense (DoD) Public Key Infrastructure (PKI), directed use of a common, integrated, interoperable DoD PKI to enable security services at multiple levels of assurance. PKI is a key and certificate management infrastructure designed to support confidentiality, integrity, availability, authorization, and access control in computer networks. It is imperative to the security of the nation's defense that the systems of the Department of Defense be PKI-enabled as soon as possible. This data collection is essential to the effort to prohibit access to the Departments' systems to those not authorized. Public Law 106-65, Section 373 directed the Department to develop and implement a Smart Card
