*A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

1. Purpose

Section 804 of the Listed Company Manual describes the procedures to be followed when the Exchange determines that a security should be removed from the list. It provides that the issuer has a right to request a review of the Exchange's determination by a Committee of the Board of Directors of the Exchange, and specifies that that committee is to be "comprised of a majority of public Directors." This requirement was added as part of a larger revision of these procedures that became effective in 2000.<sup>4</sup> The Exchange represents that the Committee for Review has long been the committee of the Board that has reviewed both disciplinary and delisting matters, and it has often been comprised of equal numbers of public and industry directors.<sup>5</sup> The Exchange represents that when the Exchange began to implement the new delisting review procedures in 2000, it became necessary to reconcile the Committee's traditional composition with the new requirement that delisting matters be reviewed by a committee comprised of a majority of public directors. The Exchange also wanted to ensure that non-voting industry directors were not precluded from participating in discussions regarding delisting determinations as a result of the new requirement. Consequently, the Committee required that the quorum for delisting matters be two public directors and one industry director, and established a rotation system<sup>6</sup> with respect to industry

director voting on delisting matters so that those voting are comprised of a majority of public directors and at least one industry director.

To insure that the Exchange's procedures are adequately described in the Listed Company Manual, the NYSE proposes to amend Section 804 of the Listed Company Manual to specify that public directors will constitute a majority of the directors voting on the delisting matter. The Exchange is also proposing to codify this change in the parallel Exchange Rule 499. Proposed NYSE Rule 499 also reflects a previous amendment to Section 804 of the Listed Company Manual that was inadvertently not added to NYSE Rule 499.

In addition, pursuant to the proposed rule change, the Chairman of the Committee would also be required to disclose to the issuer and the staff at the commencement of each delisting hearing which of the industry directors will be voting on the delisting matter. Furthermore, the decision relating to the delisting appeal would be required to identify by name which directors participated only and which directors voted on the matter. The written decision issued by the Committee would also be required to clearly state that, in reaching its decision, the Committee considered only the oral arguments, written briefs and accompanying materials presented by the parties at the time of the hearing.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,<sup>7</sup> in general, and furthers the objectives of Section 6(b)(5),<sup>8</sup> in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

*B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

present at a Committee meeting, the next succeeding industry director(s) will vote. The rotation system is subject to the composition of the Committee, which varies at each meeting as described above, depending upon each director's availability. As is the case with other procedures of the Committee, the rotation system may also be changed from time to time.

<sup>5</sup> The Exchanges states that as is the composition of any other Board Committee, the composition of the Committee for Review is determined annually, based on availability and expertise of Board members.

<sup>6</sup> Pursuant to the rotation system, the Committee designates prior to each delisting hearing which industry director(s) shall vote. At all hearings, all public directors present shall vote. For example, at a Committee meeting attended by three (3) public directors and three (3) industry directors at which two delisting appeals are considered, all public directors present and industry directors 1 and 2 will vote on the first delisting matter and all public directors present and industry directors 3 and 1 will vote on the second delisting matter. If, on the Committee's next review date, the meeting is attended by two (2) public directors and three (3) industry directors and one delisting appeal is considered, all public directors present and industry director 2 will vote on the matter; industry directors 1 and 3 will not vote. If any of the industry directors designated to vote next is not
