

have responded, all of which are in the Decision Memorandum, is attached to this notice as an appendix. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum, which is on file in the Central Record Unit, room B-099 of the main Department of Commerce building. In addition, the Decision Memorandum can be accessed directly on Import Administration's Web site at <http://ia.ita.doc.gov>. The paper copy and the electronic version of the Decision Memorandum are identical in content.

Separate Rates Determination

As stated in the preliminary results, Huarong is entitled to a separate rate.

Changes Since the Preliminary Results

In calculating the final results, the Department has made the following changes from the Preliminary Results:

1. We have corrected a typographical error in the calculation of the surrogate value for steel billet;
2. We have clarified that the Department used an average-to-transaction methodology for calculating the weighted-average dumping margin;
3. We have correctly re-labeled the CONNUMs of Huarong's indirect sales,

thereby allowing the direct and indirect sales databases to be correctly merged;

4. We have assigned a separate observation number to all of Huarong's indirect sales so that observation numbers are not duplicated in the merged database; and

5. We have removed the deduction for additional port charges from our calculation of the net U.S. price.

Final Results of Review

We determine that the following weighted-average percentage margin exists for the period February 1, 2001, through January 31, 2002:

Manufacturer/exporter	Margin (percent)
Shandong Huarong Machinery Company. Bars/Wedges --- 2/1/01-1/31/02	30.02

Assessment Rates

The Department will determine, and the BCBP shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates. Where the importer-specific assessment rate is above *de minimis*, we will instruct the BCBP to assess antidumping duties on that importer's entries of subject merchandise. Since the entered value of the merchandise was not reported to us, we have divided, where applicable, the total dumping margins (calculated as the difference between normal value and export price) for each importer by the total number of units sold to the importer. We will direct the BCBP to assess the resulting unit dollar amount against each unit of subject merchandise entered by the importer during the POR. The Department will issue appropriate assessment instructions directly to the BCBP within 15 days of publication of these amended final results of review.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of this notice of final results of administrative review for all shipments of bars and wedges from the PRC entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice, as provided by section 751(a)(1) of the Tariff Act of 1930, as amended (the Act): (1) the cash deposit rates for the reviewed companies will be the rates shown above except that, for firms whose weighted-average margins are less than 0.5 percent, and therefore, *de minimis*, the Department shall require a zero

deposit of estimated antidumping duties; (2) for previously reviewed or investigated companies with a separate rate not listed above, the cash deposit rates will continue to be the company-specific rates published for the most recent period; (3) for all other PRC exporters, the cash deposit rates will be the PRC-wide rates; (4) for all non-PRC exporters of the subject merchandise, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that exporter.

The PRC-Wide Cash Deposit Rates

The current PRC-wide cash deposit rates for Axes/Adzes and Bars/Wedges have been revised pursuant to the final results of a redetermination for the eighth administrative review of this proceeding, which can be accessed directly on Import Administration's Web site at <http://www.ia.ita.doc.gov/remands/01-88.htm>. The current PRC-wide cash deposit rates are 55.74 percent for Axes/Adzes, 139.31 percent for Bars/Wedges, 27.71 percent for Hammers/Sledges and 98.77 percent for Picks/Mattocks. These deposit requirements shall remain in effect until publication of the final results of the next administrative reviews.

Notification

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the

subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

These final results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act (19 U.S.C. 1675(a)(1) and 19 U.S.C. 1677f(i)(1)).

Dated: September 2, 2003.

James J. Jochum,

Assistant Secretary for Import Administration.

Appendix Issues in Decision Memorandum

Part I- Surrogate Country Issues

Comment 1: India as a surrogate country

Comment 2: Exclusion of Indian import prices that may be subsidized

Part II - General Surrogate Value Issues

Comment 3: The surrogate value calculation for steel

Comment 4: The surrogate value for steel billet

Comment 5: The surrogate brokerage and handling value

Comment 6: The surrogate value for steel scrap sold by Huarong

Comment 7: The surrogate value for steel pallets
