

such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before October 10, 2003. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1-year after the date the cancellation order is issued. This policy is in accordance with the Agency's statement of policy as prescribed in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL-3846-4). Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a Data Call-In. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold, or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product. Exception to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in a Special Review action, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

Draft National Pollutant Discharge Elimination System (NPDES) General Permit for Storm Water Discharges From Construction Activities That Are Classified as Associated With Industrial Activity

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 405 of the Water Quality Act of 1987 added section 402(p) to the Clean Water Act (CWA) which requires the EPA to develop a phased approach to regulating storm water discharges under the NPDES program. EPA published a final regulation on November 16, 1990, (55 FR 47990) establishing permit application requirements for storm water discharges associated with industrial activity and for discharges from municipal separate storm sewer systems serving a population of 100,000 or more. In the permit application regulations, EPA defined the term "storm water discharge associated with industrial activity" in a comprehensive manner to cover a wide variety of facilities. This definition greatly expanded the number of industrial facilities subject to the NPDES program.

EPA Region 4 published a final NPDES general permit for storm water discharges from construction activities that are classified as "associated with industrial activity" on March 31, 1998, (63 FR 15622) and modified the permit on April 28, 2000 (64 FR 25122). The general permit established Notice of Intent (NOI) requirements, special conditions, requirements to develop and implement storm water pollution prevention plans (SWPPPs), monitoring requirements for discharges to 303(d) listed water bodies, and requirements to conduct site inspections for facilities with discharges authorized by the permit. This notice requests comments on the draft reissuance of the above referenced general permit for discharges of storm water from construction activities "associated with industrial activity" on Indian Country lands where

EPA Region 4 is the permit issuing authority.

DATES: Comments relative to this draft permit are not required; however, if you wish to submit comments, the comments must be received by November 10, 2003.

ADDRESSES: Persons wishing to comment on or object to any aspects of this permit reissuance or wishing to request a public hearing, are invited to submit the same in writing within sixty (60) days of this notice to the Water Management Division, United States Environmental Protection Agency, Region 4, Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, GA 30303-8960, Attention: Ms. Ann Brown.

FOR FURTHER INFORMATION CONTACT: The proposed NPDES general permit, fact sheet and other relevant documents are on file and may be inspected any time between 9 a.m. and 4 p.m., Monday through Friday at the address shown below. Copies of the draft NPDES general permit, fact sheet or other relevant documents may be obtained by writing the United States Environmental Protection Agency, Region 4, Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, GA 30303-8960, Attention: Ms. Ann Brown, or calling (404) 562-9288. In addition, copies of the draft NPDES general permit, fact sheet or other relevant documents may be downloaded at www.epa.gov/region4/water/permits/stormwater.html.

Contact Mr. Floyd Wellborn, telephone number (404) 562-9296, or Mr. Michael Mitchell, telephone number (404) 562-9303, or at the following address: United States Environmental Protection Agency, Region 4, Water Management Division, NPDES and Biosolids Permits Section, Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, GA 30303-8960.

SUPPLEMENTARY INFORMATION:

I. Procedures for Reaching a Final Permit Decision

Pursuant to 40 CFR 124.13, any person who believes any condition of the permit is inappropriate must raise all reasonably ascertainable issues and submit all reasonably available arguments in full, supporting their position, by the close of the comment period. All comments on the proposed NPDES general permit received within the 60-day period will be considered in the formulation of final determinations regarding the permit reissuance.

After consideration of all written comments, the requirements and policies in the Act, and all appropriate regulations, the EPA Regional Administrator will make a
