Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443–7978.

The Annual Census of Patient Characteristics in State and County Mental Hospital Inpatient Services (0930–0093, Extension)—The Census, which is conducted by SAMHSA's Center for Mental Health Services (CMHS), is a complete enumeration of all State and county mental hospitals and collects aggregate information by age, gender, race/ethnicity and diagnosis for each State on the number of additions during the year and resident patients who are physically present for 24 hours per day in the inpatient service at the end of the reporting year. First conducted in 1840, the Census has provided information throughout the years that is not available from any other sources. The Census is the primary means within CMHS for assessing de-institutionalization practices of State and county mental hospitals. The annual burden estimate is shown in the table below.
