

a reference to that material in the version of the comment that is placed in the official public rulemaking file. The entire printed comment, including the copyrighted material, will be available at the Regional Office for public inspection.

B. How and to Whom Do I Submit Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate rulemaking identification number by including the text "Public comment on proposed rulemaking Region 5 Air Docket WI111" in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

1. *Electronically.* If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *E-mail.* Comments may be sent by electronic mail (e-mail) to nash.carlton@epa.gov. Please include the text "Public comment on proposed rulemaking Region 5 Air Docket WI111" in the subject line. EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly without going through Regulations.gov, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket.

ii. *Regulations.gov.* Your use of Regulations.gov is an alternative method of submitting electronic comments to

EPA. Go directly to Regulations.gov at <http://www.regulations.gov>, then click on the button "TO SEARCH FOR REGULATIONS CLICK HERE", and select Environmental Protection Agency as the Agency name to search on. The list of current EPA actions available for comment will be listed. Please follow the online instructions for submitting comments. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

iii. *Disk or CD-ROM.* You may submit comments on a disk or CD-ROM that you mail to the mailing address identified in section 2, directly below. These electronic submissions will be accepted in WordPerfect, Word or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By Mail.* Send your comments to: Carlton Nash, Chief, Regulation Development Section, Air Programs Branch, (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604. Please include the text "Public comment on proposed rulemaking Regional Air Docket WI111" in the subject line on the first page of your comment.

3. *By Hand Delivery or Courier.* Deliver your comments to: Carlton Nash, Chief, Regulation Development Section, Air Programs Branch, (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, 18th floor, Chicago, Illinois 60604. Such deliveries are only accepted during the Regional Office's normal hours of operation. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30 excluding Federal holidays.

C. How Should I Submit CBI to the Agency?

Do not submit information that you consider to be CBI electronically to EPA. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the official

public regional rulemaking file. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public file and available for public inspection without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

II. Review of State Implementation Plan Revision

1. What Did Wisconsin Submit for Approval Into the SIP?

The October 7, 2002 revision submitted by WDNR requests that EPA approve certain amended provisions to chapter NR 415, Wisconsin Administrative Code (ch. NR 415), repeal sections NR 415.04(5), NR 415.05(5) and NR 415.06(5), and add section NR 415.035 into the Wisconsin PM SIP. Specifically, newly created section NR 415.035 contains a description of the geographic areas where the PM requirements would continue to be in effect. The areas described are identical to the current state total suspended particulates (TSP) nonattainment areas. The amendments to ch. NR 415 replace the term "nonattainment area" with a reference to the new section NR 415.035. The repealed sections of ch. NR 415 refer to PM emission limitation compliance schedules whose deadlines have already passed.

2. Why Did the State Submit This SIP Revision?

The revision to the rule changed the applicability of certain PM emission limiting requirements by substituting for the term "nonattainment area" a description of the geographic areas where the requirements would continue to be in effect. The revised rule will allow the state to retain the emission limits and RACT requirements which helped lower PM concentrations in those areas and ensure that the PM National Ambient Air Quality Standards (NAAQS) are maintained.

3. Why Is EPA Taking This Action?

EPA is taking this action because the State's request does not change any of the emission limitations currently in the PM SIP. The revision to the Wisconsin PM SIP does not approve any new construction or allow an increase in emissions, thereby providing for attainment and maintenance of the PM NAAQS and satisfying the applicable PM requirements of the Act.
