SUPPLEMENTARY INFORMATION:

Background

On May 12, 2003, the Department of Commerce (the Department) published in the *Federal Register* the preliminary results of the administrative review of the antidumping duty order on gray portland cement and clinker from Mexico. See *Preliminary Results and Rescission in Part of Antidumping Duty Administrative Review: Gray Portland Cement and Clinker From Mexico*, 68 FR 25327 (Preliminary Results).

We invited parties to comment on the *Preliminary Results*. In June 2003, we received case and rebuttal briefs from the petitioner, the Southern Tier Cement Committee, and from the respondents, CEMEX, S.A. de C.V. (CEMEX), and GCC Cemento, S.A. de C.V. (GCCC). The Department has conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Scope of Review

The products covered by this review include gray portland cement and clinker. Gray portland cement is a hydraulic cement and the primary component of concrete. Clinker, an intermediate material product produced when manufacturing cement, has no use other than being ground into finished cement. Gray portland cement is currently classifiable under Harmonized Tariff Schedule (HTS) item number 2523.29 and cement clinker is currently classifiable under HTS item number

2523.10. Gray portland cement has also been entered under HTS item number 2523.90 as "other hydraulic cements." The HTS subheadings are provided for convenience and customs purposes only. The Department's written description remains dispositive as to the scope of the product coverage.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this administrative review, and to which we have responded, are listed in the Appendix to this notice and addressed in the "Issues and Decision Memorandum" (Decision Memorandum) from Jeffrey May, Deputy Assistant Secretary, to James J. Jochum, Assistant Secretary for Import Administration, dated September 9, 2003, which is hereby adopted by this notice. The Decision Memorandum is on file in Import Administration's Central Records Unit, Room B-099 of the main Department of Commerce Building. In addition, a complete version of the Decision Memorandum is available on the Internet at <http://ia.ita.doc.gov>. The paper copy and electronic version of the Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on our analysis of comments received, we have corrected certain programming and clerical errors in our preliminary results, where applicable. These changes are discussed in the relevant sections of the Decision Memorandum.

Final Results of Review

We determine that the following weighted-average margin exists for the collapsed parties, CEMEX and GCCC, for the period August 1, 2001, through July 31, 2002:

Exporter/manufacture	Weighted-average percentage margin
CEMEX/GCCC	79.81

Assessment Rates

The Department shall determine, and the Bureau of Customs and Border Protection (Customs) shall assess, antidumping duties on all appropriate entries. We will issue appropriate assessment instructions directly to Customs within 15 days of publication of these final results of review. In accordance with 19 CFR 351.212(b), we have calculated an exporter/importer-specific assessment rate. For the sales in the United States through the respondent's affiliated U.S. parties, we divided the total dumping margin for
