DATES: Reclamation is extending the formal scoping period an additional 90 days following publication of this notice. Written comments should be sent to the Reclamation Project Manager (see **ADDRESSES** below) December 15, 2003. SUPPLEMENTARY INFORMATION:

Reclamation is extending the formal scoping period to allow additional time to receive public comments and to conduct scoping meetings. Continued developments related to the Klamath

Project have occurred since the formal scoping was initiated in early May 2003. Additional information may become available, such as the final report of the National Academy of Science's Committee on Endangered and Threatened Fishes in the Klamath River Basin, that could result in new information relevant to the proposed action and prompt additional scoping comments from the public useful for the environmental impact statement.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment letter. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Dated: September 3, 2003.

Frank Michny,

Regional Environmental Officer, Mid-Pacific Region.
