

EPA APPROVED NONREGULATORY PROVISIONS AND QUASI-REGULATORY MEASURES IN THE NEW MEXICO SIP

Name of SIP provision	Applicable geo-graphic or non-attainment area	State submittal/effective date	EPA approval date	Explanation
Revision for Attainment, and Maintenance Plan of SO ₂ Standards.	Portion of Grant County, this portion is restricted to a 3.5 mile radius around the Kennecott Copper Corporation (now owned by the Phelps Dodge Corporation and called the Hurley smelter) and land above 6470 feet Mean Sea Level within an 8 mile radius of the Hurley Smelter/Concentrator in Hurley.	02/21/03	9/18/03 [insert FR page citation].	
Contingency Measures Plan.	Portion of Grant County, this portion is restricted to a 3.5 mile radius around the Kennecott Copper Corporation (now owned by the Phelps Dodge Corporation and called the Hurley smelter) and land above 6470 feet Mean Sea Level within an 8 mile radius of the Hurley Smelter/Concentrator in Hurley.	02/21/03	9/18/03 [insert FR page citation].	

PART 81—[AMENDED]

Authority: 42 U.S.C. 7401 *et seq.*

§ 81.332 New Mexico.

■ 1. The authority citation for part 81 continues to read as follows:

■ 2. In § 81.332 the SO₂ table is amended by revising the entry for the AQCR 012 to read as follows:

NEW MEXICO—SO₂

Designated area	Does not meet primary standards	Does not meet secondary standards	Cannot be classified	Better than national standards
AQCR 012:				
Grant County				X
Remainder of AQCR				X

RIN: 2060–AF36

Protection of Stratospheric Ozone: Supplemental Rule Regarding a Recycling Standard Under Section 608 of the Clean Air Act; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correction.

SUMMARY: Through this action, EPA is correcting the final rule published in the **Federal Register** on July 24, 2003 (68 FR 43786). Specifically, EPA is clarifying that the effective date for the rule, as it applies to the certification of refrigerant recycling equipment is effective 90 days after the publication date (*i.e.*, October 22, 2003). The effective date for the remaining components of the final rule is September 22, 2003.

EPA is also including amendments to regulations that were discussed in the preamble to the July 24, 2003 final rule, but were inadvertently omitted from the **Federal Register**.

DATES: The final rule that was published on July 24, 2003 at 68 FR 43786 is effective on September 22, 2003, except for § 82.158(n) (*i.e.*, certification standards for refrigerant recycling only equipment) which is effective October 22, 2003.

FOR FURTHER INFORMATION CONTACT:

Julius Banks; (202) 564–9870; Stratospheric Protection Implementation Branch, Global Programs Division, Office of Atmospheric Programs, Office of Air and Radiation (6205-J); 1200 Pennsylvania Avenue, NW., Washington, DC 20460. The Stratospheric Ozone Information Hotline, 800–296–1996, and the Ozone Web page, <http://www.epa.gov/ozone/title6/608/regulations/index.html>, can also be contacted for further information concerning this correction.

SUPPLEMENTARY INFORMATION:

While the final rule published in the **Federal Register** on July 24, 2003 (68 FR 43786) lists the effective date for the certification of refrigerant recycling

equipment, as being effective 90 days after the publication date (*i.e.*, October 22, 2003), the notice failed to specify a regulatory citation associated with equipment certification. Therefore, EPA is clarifying that the effective date for the rule, as it applies to the certification of refrigerant recycling equipment, as stated in 40 CFR 82.158(n), is effective 90 days after the final rule publication date (*i.e.*, October 22, 2003).

The final rule discussed several edits to the appendices of 40 CFR part 82, subpart F that were omitted from the regulatory text published in the **Federal Register** (*i.e.*, reference list and standards for particulate used in standard contaminated refrigerant samples in Appendix B2 and the standards for becoming a certifying program for technicians in Appendix D). EPA is adding the reference list and the standards for particulate used in standard contaminated refrigerant samples to Appendix B2 (based on the ARI Standard 740–1995) that was inadvertently omitted from the **Federal Register** document. EPA is also adding edits to the regulatory text of Appendix D to subpart F—Standards for Becoming a Certifying Program for Technicians that were omitted from the final rule published on July 24, 2003. The edits
