

Table 1
Symbols for Controls, Telltales, and Indicators
with Illumination or Color Requirements

Column 1 ITEM	Column 2 SYMBOL	Column 3 FUNCTION	Column 4 ILLUMINATION	Column 5 COLOR
Heating system		Control	Yes	—
Air conditioning system		Control	Yes	—
Automatic transmission control position (park) (reverse) (neutral) (drive)		Indicator	Yes	—
Heating and/or air conditioning fan		Control	Yes	—
Tire malfunction (including low pressure)		Telltale	Yes	Yellow
Tire malfunction (including low pressure) that identifies involved tire		Telltale	Yes	Yellow

Notes:

1. Framed areas of the symbol may be solid; solid areas may be framed.
2. Symbols employing four lines instead of five may also be used.
3. Red may be red-orange. Blue may be blue-green.
4. The pair of arrows is a single symbol. When the controls or telltales for left and right turn operate independently, however, the two arrows may be considered separate symbols and be spaced accordingly.
5. Not required when arrows of turn signal telltales that otherwise operate independently flash simultaneously as hazard warning telltale.
6. Separate identification not required if function is combined with master lighting switch.
7. English word or abbreviation not required after [insert 5 years after effective date of this rule].
8. If a single telltale is used to indicate more than one brake system condition, the brake system malfunction symbol must be used.
9. Combination of the engine oil pressure symbol and the engine coolant temperature symbol in a single telltale is permitted.
10. Use when engine control is separate from the key locking system.
11. Letter "D" may be replaced by other alphanumeric character or symbol chosen by the manufacturer. The indicators may be displayed top to bottom, or left to right, or both.
12. If the speedometer is graduated in miles per hour and in kilometers per hour, the identification must be "MPH and km/h" in any combination of upper and lowercase letters.
