

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION: The President's New Freedom Initiative (NFI) and the National Institute on Disability and Rehabilitation Research Long Range Plan (Plan) establish improving employment outcomes for individuals with disabilities as a critical need. National data indicate that employment rates of individuals with disabilities continue to lag well behind those of individuals without disabilities.

Note: The NFI can be accessed on the Internet at the following site: <http://www.whitehouse.gov/news/freedominitiative/freedominitiative.html>.

The Plan can be accessed on the Internet at the following site: <http://www.ed.gov/rschstat/research/pubs/index.html>.

In accordance with the goals of the NFI and the Plan, and as authorized under section 204(b)(2) of the Rehabilitation Act of 1973, as amended, through NIDRR, the Department provides funding for Rehabilitation Research and Training Centers to conduct research on the improvement of employment outcomes for individuals with disabilities. In order to foster more efficient use of Federal funds for the Rehabilitation and Research Training Centers program, the Secretary intends to refocus the priorities for research on these employment issues and provide funding for new awards in fiscal year (FY) 2004.

The grants for six Rehabilitation Research and Training Centers focusing on employment issues at Virginia Commonwealth University, Cornell University, The University of Wisconsin at Stout, The University of Hawaii, The University of Iowa, and The University of Massachusetts are scheduled to expire between September 30, 2003 and December 16, 2003. It would be contrary to the public interest, however, to have any lapses in these research and training activities before the refocused priorities can be implemented and new awards granted for FY 2004.

To avoid any lapse in research and training activities before the refocused priorities can be implemented, therefore, the Secretary has decided to fund these projects until April 30, 2004. Accordingly, the Secretary waives the requirements in 34 CFR 75.250 and 75.261(a) and (c)(2), which prohibit project periods exceeding 5 years and extensions of project periods that

involve the obligation of additional Federal funds.

Waiver of Proposed Rulemaking

Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, the waiver of the requirements in 34 CFR 75.250 and 75.261 applicable to the maximum project period and extension of the project period for these grants on a one-time only basis is procedural and does not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), proposed rulemaking is not required.

In addition, given the fact that the additional period of funding is only for a limited period of approximately four months from the expiration of the last grant agreement in December 2003, and the extensions must begin by September 30, 2003 to avoid any lapse in funding, the Secretary has determined that proposed rulemaking on this waiver is impracticable, unnecessary, and contrary to the public interest. Thus, proposed rulemaking also is not required under 5 U.S.C. 553(b)(B).

Regulatory Flexibility Act Certification

The Secretary certifies that the waiver and extension of the project period and waiver will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act of 1995

This extension and waiver does not contain any information collection requirements.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

University Reactor Instrumentation (URI) Program Solicitation Number DE-PS07-03ID14541

AGENCY: Idaho Operations Office, DOE.

ACTION: Notice of availability of solicitation for awards of financial assistance.

SUMMARY: The U.S. Department of Energy, Idaho Operations Office, is soliciting applications for special research grant awards that will upgrade and improve U.S. nuclear research and training reactors. It is anticipated that on September 25, 2003, a full text for Solicitation Number DE-PS07-03ID14541 for the fiscal year 2004 URI Program will be made available at the Industry Interactive Procurement System (IIPS) Web site at: <http://e-center.doe.gov>. The deadline for receipt of applications will be on December 5, 2003. Applications are to be submitted via the IIPS Web site. Directions on how to apply and submit applications are detailed under the solicitation on the Web site.

FOR FURTHER INFORMATION CONTACT: Kathleen Stallman, Contract Specialist at stallmkm@id.doe.gov.

SUPPLEMENTARY INFORMATION: The solicitation will be issued in accordance with 10 CFR part 600.6(b). Eligibility for awards under this program will be restricted to U.S. colleges and universities having a duly licensed, operating nuclear research or training reactor because the purpose of the University Reactor Instrumentation (URI) program is to upgrade and improve the U.S. university nuclear research and training reactors and to contribute to strengthening the academic community's nuclear engineering infrastructure.

The statutory authority for this program is Public Law 95-91.

Issued in Idaho Falls on September 22, 2003.

R.J. Hoyles,
Director, Procurement Services Division.
