

Background and Changes

The Act (7 U.S.C. 6301–6311) provides for the establishment of a coordinated program of promotion and research designed to strengthen the soybean industry's position in the marketplace, and to maintain and expand domestic and foreign markets and uses for soybeans and soybean products. The program is financed by an assessment of 0.5 percent of the net market price of soybeans sold by producers. Pursuant to the Act, an Order was made effective July 9, 1991. The Order established a Board of 60 members. For purposes of establishing the Board, the United States was divided into 31 geographic units. Representation on the Board from each unit was determined by the level of production in each unit. The Secretary appointed the initial Board on July 11, 1991. The Board is composed of domestic soybean producers.

Section 1220.201(c) of the Order provides that at the end of each 3-year period, the Board shall review soybean production levels in the geographic units throughout the United States. The Board may recommend to the Secretary modification in the levels of production necessary for Board membership for each unit. At its March 2003 meeting the Board decided not to recommend any changes to the levels of production necessary for Board membership for each unit.

Section 1220.201(d) of the Order provides that at the end of each 3-year period, the Secretary must review the volume of production of each unit and adjust the boundaries of any unit and the number of Board members from each such unit as necessary to conform with the criteria set forth in § 1220.201(e): (1) To the extent practicable, States with annual average soybean production of less than 3,000,000 bushels shall be grouped into geographically contiguous units, each of which has a combined production level equal to or greater than 3,000,000 bushels, and each such group shall be entitled to at least one member on the Board; (2) units with at least 3,000,000 bushels, but fewer than 15,000,000 bushels shall be entitled to one Board member; (3) units with 15,000,000 bushels or more but fewer than 70,000,000 bushels shall be entitled to two Board members; (4) units with 70,000,000 bushels or more but fewer than 200,000,000 bushels shall be entitled to three Board members; and (5) units with 200,000,000 bushels or more shall be entitled to four Board members.

A proposed rule was published in the **Federal Register** (68 FR 35825) on June

17, 2003, with a 60-day comment period. The Department received one comment from an individual who, while opposed to the proposal, did not address the proposed changes to the representation on the Board.

Based on the requirements of the Act and Order, AMS is adjusting representation on the Board as proposed. Maryland and Michigan will each gain an additional member. New York will no longer be part of the Eastern Region unit because the State has sufficient soybean production to qualify as a separate State unit with one representative on the Board. New Jersey will lose its only member because the State no longer has sufficient soybean production to be a separate State unit. New Jersey is merged into the Eastern Region unit, and will be represented on the Board by the Eastern Region's representative. There are no adjustments to the other States or regions.

This final rule will increase Board membership from 62 members to 64 members effective with the 2004 nominations and appointments. The number of geographical units will remain at 30.

List of Subjects in 7 CFR Part 1220

Administrative practice and procedure, Advertising, Agricultural research, Marketing agreements, Soybeans and soybean products, Reporting and recordkeeping requirements.

■ For the reasons set forth in the preamble, Title 7, part 1220 is amended as follows:

PART 1220—SOYBEAN PROMOTION, RESEARCH, AND CONSUMER INFORMATION

■ 1. The authority citation for 7 CFR part 1220 continues to read as follows:

Authority: 7 U.S.C. 6301–6311.

■ 2. In § 1220.201, the table in paragraph (a) is revised to read as follows:

§ 1220.201 Membership of board.

(a) * * *

Unit	No. of members
Illinois	4
Iowa	4
Minnesota	4

BILLING CODE 3410–02–P

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 30, 40, and 70

RIN 3150–AG85

Financial Assurance for Materials Licensees

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations for financial assurance for certain materials licensees, including all waste brokers, to bring the amount of financial assurance required more in line with current decommissioning costs. The objective of this action is to ensure that licensees maintain adequate financial assurance so that timely decommissioning can be carried out following shutdown of a licensed facility.

EFFECTIVE DATE: December 2, 2003.
