

Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Needs and Uses: The Commission adopted the Schedule S, a standardized form for space station license applications, and Form 312-EZ for earth station license applications. The implementation of the decisions in the Schedule S rulemaking will enable the Commission to review space station and earth station applications more quickly than is now possible, and therefore, increase speed of service to the public. In particular, the implementation of mandatory electronic filing of most satellite and earth station applications will result in a reduction of burden hours per submission for the applicants.

Needs and Uses: Responsible Organizations (RespOrgs) who wish to make a specific toll free number unavailable must submit written request to the toll free database administrator, Database Services Management, Inc. (DSMI). This requirement will hold those RespOrgs more accountable and will decrease abuses of lag time in the process. It will prevent numbers from being held in unavailable status without demonstrated reasons, and will make more numbers available for subscribers who need and want them. If DSMI is uncertain whether a number should be placed in unavailable status, it should seek guidance from the Commission's Wireline Competition Bureau.
