Submission for OMB Review; Comment Request; NCI Cancer Information Service Demographic/ Customer Service Data Collection

SUMMARY: Under the provisions of section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the **Federal Register** on June 9, 2003, Vol. 68, No. 25, pages 34405-34406 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number. **Proposed Collection:** Title: The National Cancer Institute Cancer Information Service Demographic Customer Service Data Collection. **Type of Information Collection Request:** Revision with change of a currently approved collection (OMB No. 0925-0208, expires 10/31/2003). **Need and Use of Information Collection:** The National Cancer Institute's Cancer Information Service (CIS) provides the latest information on cancer, clinical trials,

and tobacco cessation. Characterizing users and how they found out about the CIS is essential to customer service, program planning and promotion. This effort involves a brief survey of users of the 1-800-4-CANCER toll-free service and LiveHelp, a Web-based chat service. The telephone survey contains seven questions—3 customer service and 4 demographic—asked of a subset of callers (cancer patients, their family or friends, and the general public) at the end of usual service for an annual total of approximately 286,000 callers. 100% of these callers will be asked the three customer service questions for an annual total of approximately 286,000 callers; 25% of callers will be asked the four demographic questions for an annual total of approximately 71,500 callers. If the call is the result of a special promotion, 50% of callers will be surveyed for demographics. Special promotions account for an estimated 30% of calls for an annual total of approximately 42,900 callers. The combined annual total is 400,400 callers. The LiveHelp web survey involves asking the same seven questions to 50% of the same subset of users for an annual total of approximately 5,500 users. The combined total to be surveyed each year is 405,900 users of the telephone and LiveHelp services for total of 1,951 annual burden hours. **Frequency of Response:** Single time. **Affected Public:** Individuals or households. **Type of Respondents:** Patients, relatives, friends, and general public. The annual reporting burden is as follows:

TABLE 1.—RESPONDENT AND BURDEN ESTIMATE

Type of respondents	Number of respondents	Frequency of response	Average time per response	Annual hour burden
Individuals or Households				
Telephone:				
—3 questions (100%)	286,000	1	0.00328	937
—4 questions (25%)	71,500	1	0.0083	594
—4 questions (50%) special promotions	42,900	1	0.0083	356
Subtotal	400,400
LiveHelp:				
—7 questions (50%)	5,500	1	0.0116	64
Subtotal	5,500	64
Annualized Totals	405,900	1,951

The annualized cost to respondents is estimated at: \$31,904. There are no Capital Costs to report. There are no

Operating or Maintenance Costs to report.
