

**SUPPLEMENTARY INFORMATION:** The Wireless Telecommunications Bureau published a document revising the general competitive bidding rules for all auctionable services in the **Federal Register** of July 21, 2003 (68 FR 42984). This document corrects the **Federal Register** as it appeared.

In rule FR Doc. 03-18430 published on July 21, 2003 (68 FR 42984) make the following correction:

■ 1. On page 42999, in the third column and on line 19, instruction 29 is corrected to read as follows:

**§ 24.720 [Corrected]**

■ 29. Amend § 24.720 by removing paragraphs (b)(3), (b)(4), (c), and (d), redesignating paragraphs (e), (f), (g), (h), (i), and (j) as paragraphs (c), (d), (e), (f), (g), and (h), redesignating the Note to Paragraph (j) as the Note to Paragraph (h) and revising paragraph (b) introductory text and newly redesignated paragraph (g) to read as follows:

Federal Communications Commission.

**Marlene Dortch,**

*Secretary.*

**FEDERAL COMMUNICATIONS COMMISSION**

**47 CFR Part 73**

[DA 03-2925, MM Docket No. 01-43, RM-10041]

**Digital Television Broadcast Service; Jackson, MS**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** The Commission, by this document, dismisses a petition for rule making filed by Civic License Holding Company, Inc. requesting the substitution of DTV channel 9 for DTV channel 51 at Jackson, Mississippi. See 66 FR 12749, February 28, 2001. With this action, this proceeding is terminated.

**FOR FURTHER INFORMATION CONTACT:** Pam Blumenthal, Media Bureau, (202) 418-1600.

**SUPPLEMENTARY INFORMATION:** This is a synopsis of the Commission's Report and Order, MM Docket No. 01-43, adopted September 23, 2003, and released October 1, 2003. The full text of this document is available for public inspection and copying during regular business hours in the FCC Reference Information Center, Portals II, 445 12th Street SW., Room CY-A257,

Washington, DC. This document may also be purchased from the Commission's duplicating contractor, Qualex International, Portals II, 445 12th Street, SW., CY-B402, Washington, DC, 20554, telephone (202) 863-2893, facsimile (202) 863-2898, or via e-mail [qualexint@aol.com](mailto:qualexint@aol.com).

**BILLING CODE 6712-01-P**

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**50 CFR Part 17**

**RIN 1018-AG41**

**Endangered and Threatened Wildlife and Plants; Removing *Eriastrum hooveri* (Hoover's woolly-star) from the Federal List of Endangered and Threatened Species**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Final rule.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), have determined that *Eriastrum hooveri* (Hoover's woolly-star) is no longer a threatened species pursuant to the Endangered Species Act of 1973 (Act), as amended. This determination is based on the discovery of new populations and implementation of recovery actions that contributed substantially towards meeting delisting criteria outlined in the "Recovery Plan For Upland Species of the San Joaquin Valley, California" (Recovery Plan) (USFWS 1998).

Beginning in 1990, recovery efforts for this species succeeded in locating additional populations, discovering through research that *Eriastrum hooveri* is more resilient and less vulnerable to disturbance activities than previously known, and achieving protection through cooperation with Federal, State, and private entities on more than 114,400 hectares (286,000 acres) of *E. hooveri* habitat. The management practices of, and commitments by, the U.S. Bureau of Land Management (BLM), on whose land a substantial number of the new populations have been found, will afford adequate protection to the species upon delisting.

Following delisting, BLM will designate *E. hooveri* as a "sensitive species" pursuant to BLM Manual 6840 and California State Manual Supplement H-6840.06, to provide for continued protection and monitoring of the species on BLM lands. The post-delisting monitoring, required under section 4 of the Act, will be facilitated by BLM's implementation of their Caliente Resource Management Plan (RMP) (BLM 1996). Under the RMP and separate agreements, BLM will monitor the species and monitor residual threats at representative sites within four *E. hooveri* metapopulations.

**DATES:** This rule is effective October 7, 2003.

**ADDRESSES:** The administrative record for this rule is available for inspection, by appointment, during normal business hours at the Sacramento Fish and Wildlife Office of the U.S. Fish and Wildlife Service, 2800 Cottage Way, Room W-2605, Sacramento, CA 95825-1864, (telephone 916/414-6600).

**FOR FURTHER INFORMATION CONTACT:** Graciela Hinshaw, Sacramento Fish and Wildlife Office, at the above address or telephone 916/414-6600.

**SUPPLEMENTARY INFORMATION:**

**Background**

*Eriastrum hooveri* (Hoover's woolly-star) was first collected in 1935 by Gregory Lyons near Little Panoche Creek, western Fresno County, in the San Joaquin Valley of California. In 1943, Willis Jepson described the plant as *Hugelia hooveri*, citing a 1937 collection by Robert Hoover (the namesake for the scientific and common names). Later, Herbert Mason (1945) transferred the species along with the rest of the woolly-stars to the genus *Eriastrum*.

*Eriastrum hooveri*, an annual herb of the phlox family (Polemoniaceae), produces many wire-like stems and tiny white to pale blue flowers that are less than 5 millimeters (mm) (0.2 inch (in)) across. The flowers are nearly hidden in tufts of woolly hair. The leaves are thread-like and may have two narrow lobes near the base. Standing 1 to 20 centimeters (cm) (0.4 to 8 in) tall, the species has grayish, fuzzy stems, which are often branched (Munz and Keck 1959; USFWS 1998). The most important characteristics for distinguishing this species from other *Eriastrum* species are the flower size and the ratio between the length of the corolla and the length of the lobes on the petals (petals are highly colored portions of the flower and collectively are called the corolla). Characteristics of the stamen (male reproductive organ)
