*Title:* Youth Conservation Corps Application & Medical History Forms.

*OMB Control Number:* 0596-0084.

*Summary of Collection:* Under Pub. L. 93-408, the Youth Conservation Corps Act (YCC), the Forest Service provides seasonal employment for eligible youth 15 to 18 years old. As part of this effort, the Forest Service collects information from applicants to evaluate their eligibility for employment with the agency through the program. Each eligible youth, who wish to apply and be considered for employment in the YCC program must submit an application form (FS 1800-18). This is a seasonal program requiring new submission by applicants each year. Selected participants must complete the

medical history form and their parent or guardian must sign. This is necessary to certify the youth's physical fitness to serve in the YCC program.

*Need and Use of the Information:* All candidates interested in participating in the YCC program must complete an application. Those applicants, selected at random, complete the form FS 1800-3, Youth Conservation Corps Medical History, which provides information needed to determine certification of suitability, any special medical or medication needs, and a file record to protect both the Federal Government and individuals. *Title:* Agreement to Initiate (ATI) and Exchange Agreement (EA)

*OMB Control Number:* 0596-0105.

*Summary of Collection:* Land exchanges are an important tool to consolidate landownership for purposes of more efficient management; to secure important Forest Plan objectives of resource management, enhancement, development, and protection; and to fulfill other public needs such as acquiring lands important for such resources as fisheries habitat, wild and scenic rivers, wildlife habitat, and wilderness. A land exchange is where the United States has identified either federal land or federal interest in land available for exchange and a non-Federal party has identified either private land or private interest in land they are interested in exchanging. The primary authorities used to perform land exchanges involving National Forest Systems lands include the General Exchange Act, the Weeks Act, the Federal Land Policy and Management Act and the Federal Land Exchange Facilitation Act.

*Need and use of the Information:* The Forest Service (FS) will collect information by phone, in face-to-face meetings, or by mail. FS will also collect information such as the identification of the non-Federal land exchange parties; the description of the lands and interests to be exchanged, such as roads; the identification of all reserve and outstanding interests, such as roads, minerals, and easements; and all other terms and conditions necessary to

complete exchange. To not collect the information would mean the land exchange was dropped.

*OMB Control Number:* 0535-0153.

*Summary of Collection:* The National Agricultural Statistics Service (NASS) primary function is to prepare and issue State and national estimates of crop and livestock production. General authority for these data collection activities is granted under U.S. Code Title 7, section 2204. Domestic honeybees are critical to the pollination of U.S. crops, especially fruits and vegetables. Africanized bees, parasites, diseases, and pesticides threaten the survival of bees. Programs are provided by federal, State and local governments to assist in the survival of bees and to encourage beekeepers to maintain bee colonies.

The survey will provide data needed by the Department and other government agencies to administer programs and to set trade quotas and tariffs. Without the information, the agricultural industry would not be aware of changes at the State and national level.
