

F. Lakeview Landfill

Lakeview Landfill is located in Summit Township, Erie County, Pennsylvania. The Lakeview Landfill is a major VOC emitting facility. In this instance, RACT has been established and imposed by the PADEP in an OP. On July 2, 2003, PADEP submitted OP-25-920 to EPA as a SIP revision. This operating permit incorporates RACT determinations for VOCs for the following source at the Sunbury facility: One (1) enclosed flare.

RACT for the enclosed flare at the Lakeview Landfill facility shall be the installation, maintenance, and operation in accordance with the manufacturer's specifications and with good air pollution control practices. The enclosed flare shall also comply with the destruction/removal efficiency (DRE) of at least 98 percent (by weight) for non-methane organic compounds (NMOC). An inspection and cleaning of the enclosed flare shall be conducted annually. This inspection shall include the fuel nozzles or the flame pattern or characteristics. Adjustments in the combustion process shall be conducted if necessary to minimize the formation of NO_x. A log shall be kept to record the annual inspection, cleaning (if necessary) and adjustments performed. This log shall contain at a minimum: the date of the maintenance procedure, the name of the technician(s) performing the service, and the operating rate after the procedure has been completed.

Lakeview Landfill shall comply with the recordkeeping requirements of 25 PA Code, section 129.95. Records of fuel quantity and consumption shall be maintained by the facility and forwarded to the Department upon request.

III. Final Action

EPA is approving these RACT SIP submittals because the Commonwealth established and imposed these RACT requirements in accordance with the criteria set forth in the SIP-approved regulations for imposing RACT or for limiting a source's potential to emit. The Commonwealth has also imposed recordkeeping, monitoring, and testing requirements on these sources sufficient to determine compliance with these requirements.

EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comments. However, in the "Proposed Rules" section of today's **Federal Register**, EPA is publishing a separate document that will serve as the proposal to approve the SIP revision if adverse

comments are filed. This rule will be effective on December 15, 2003 without further notice unless EPA receives adverse comment by November 14, 2003. If EPA receives adverse comment, EPA will publish a timely withdrawal in the **Federal Register** informing the public that the rule will not take effect. EPA will address all public comments in a subsequent final rule based on the proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

You may submit comments either electronically or by mail. To ensure proper receipt by EPA, identify the appropriate rulemaking identification number PA208-4214 in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

1. *Electronically.* If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *E-mail.* Comments may be sent by electronic mail (e-mail) to morris.makeba@epa.gov attention: PA208-4214. EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly without going through [Regulations.gov](http://www.regulations.gov), EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically

captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket.

ii. *Regulations.gov.* Your use of [Regulations.gov](http://www.regulations.gov) is an alternative method of submitting electronic comments to EPA. Go directly to <http://www.regulations.gov>, then select "Environmental Protection Agency" at the top of the page and use the "go" button. The list of current EPA actions available for comment will be listed. Please follow the online instructions for submitting comments. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that you mail to the mailing address identified in the **ADDRESSES** section of this document. These electronic submissions will be accepted in WordPerfect, Word or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By Mail.* Written comments should be addressed to the EPA Regional office listed in the **ADDRESSES** section of this document.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at the EPA Regional Office, as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in the official public rulemaking file. The entire printed comment, including the copyrighted material, will be available at the Regional Office for public inspection.

Submittal of CBI Comments

Do not submit information that you consider to be CBI electronically to EPA. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.
