

incorporated in the waterproofing operation to which diluents (thinners, reducers, etc.) and/or any other VOC-containing material, other than dipping compounds are added: (1) The types and amount of dipping compounds added to each dip tank and the dates of addition, and (2) the types and amounts of any diluents and/or any other VOC-containing materials added to each dip tank and the dates of addition. For each waterproofing dip tank incorporated in the waterproofing operation to which a dipping compound is added, the facility shall maintain records of the type and amounts of dipping compound added to the tank. In addition, the facility shall also maintain separate records of all cleanup solvents used in the waterproofing operation. The records generated for each calendar quarter shall be submitted to PADEP by no later than the thirtieth day of the month following the respective calendar quarter.

The permit contains a potential to emit VOC emission limits of 3 pounds per hour, 15 pounds per day, or 2.7 tons per year for the following sources: (1) Two (2) Johnson boilers, (2) three (3) Safety Kleen degreasing sinks, (3) a 250 gallon capacity horizontal gasoline storage vessel, (4) kerosene cleaning of the leather splitting blades, and (5) sponge solution fungicide leather treatment. The two Johnson boilers are to be fired only on gas (natural or LP) or No. 2 fuel oil to which no reclaimed or waste oil or other waste materials have been added. The facility shall provide fuel analyses or fuel samples of the fuel used by the two boilers upon request by PADEP.

The facility shall also maintain comprehensive, accurate records for the following sources in accordance with 25 Pa. Code Chapter 129 section 129.95 which, at a minimum, shall include the following: (1) The amounts of natural gas and No. 2 fuel oil used, per calendar year, in each of the boilers, (2) the amount of degreasing solvent used and the amount of spent degreasing solvent shipped offsite, as liquid hazardous waste, per calendar year, for the degreasing sinks, (3) the amount of gasoline stored, per calendar year, in the gasoline storage tank, (4) the amount of kerosene used, per calendar year, for cleaning the leather splitting blades, and (5) the amount of sponge solution fungicide used, per calendar year, in the leather treatment operation. The facility shall retain these records onsite for at least two years and made available to PADEP upon request.

III. EPA's Evaluation of the SIP Revisions

EPA is approving these SIP submittals because the Commonwealth established and imposed requirements in accordance with the criteria set forth in SIP-approved regulations for imposing RACT or for limiting a source's potential to emit. The Commonwealth has also imposed record-keeping, monitoring, and testing requirements on these sources sufficient to determine compliance with these requirements.

IV. Final Action

EPA is approving revisions to the Commonwealth of Pennsylvania's SIP which establish and require RACT for the five major sources of VOC and NO_x listed in this document. EPA is publishing this rule without prior proposal because we view this as a noncontroversial amendment and anticipate no adverse comment. However, in the "Proposed Rules" section of today's **Federal Register**, EPA is publishing a separate document that will serve as the proposal to approve the SIP revision if adverse comments are filed. This direct final rule will be effective on December 16, 2003, without further notice unless we receive adverse comment by November 17, 2003. If EPA receives adverse comment, EPA will publish a timely withdrawal in the **Federal Register** informing the public that the rule will not take effect. EPA will address all public comments in a subsequent final rule based on the proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

You may submit comments either electronically or by mail. To ensure proper receipt by EPA, identify the appropriate rulemaking identification number PA203-4209 in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

1. *Electronically.* If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your

comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *E-mail.* Comments may be sent by electronic mail (e-mail) to morris.makeba@epa.gov, attention: PA203-4209. EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly without going through Regulations.gov, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

ii. *Regulations.gov.* Your use of Regulation.gov is an alternative method of submitting electronic comments to EPA. Go directly to <http://www.regulations.gov>, then select "Environmental Protection Agency" at the top of the page and use the "go" button. The list of current EPA actions available for comment will be listed. Please follow the online instructions for submitting comments. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that you mail to the mailing address identified in the **ADDRESSES** section of this document. These electronic submissions will be accepted in WordPerfect, Word or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By Mail.* Written comments should be addressed to the EPA Regional office listed in the **ADDRESSES** section of this document.

For public commenters, it is important to note that EPA's policy is that public comments, whether
