BILLING CODE 3510-16-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 021122286-3036-02; I.D. 101403B]

Fisheries of the Economic Exclusive Zone Off Alaska; Trawl Gear in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing directed fishing for groundfish by vessels using trawl gear in the Gulf of Alaska (GOA), except for directed fishing for pollock by vessels using pelagic trawl gear in those portions of the GOA open to directed fishing for pollock. This action is necessary because the 2003 Pacific halibut prohibited species catch (PSC) limit specified for trawl gear in the GOA has been caught.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 15, 2003, until 1200 hrs, A.l.t., December 31, 2003.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and

Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2003 Pacific halibut PSC limit for vessels using trawl was established as 2,000 metric tons (mt) by the final 2003 harvest specifications for groundfish of the GOA (68 FR 9924, March 3, 2003).

The Administrator, Alaska Region, has determined, in accordance with § 679.21(d)(7)(i), that vessels engaged in directed fishing for groundfish with trawl gear in the GOA have caught the 2003 Pacific halibut PSC limit. Therefore, NMFS is closing the directed fishery for groundfish by vessels using trawl gear in the GOA, except for directed fishing for pollock by vessels using pelagic trawl gear in those portions of the GOA that remain open to directed fishing for pollock.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is contrary to the public interest. This requirement is contrary to the public interest as it would delay the closure of the fishery, lead to exceeding the 2003 Pacific halibut PSC limit and therefore reduce the public's ability to use and enjoy the fishery resource.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 14, 2003.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-AP92

Individual Fishing Quota (IFQ) Program for Pacific Halibut and Sablefish; Technical Amendment

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; technical amendment.

SUMMARY: This document reinstates recordkeeping and reporting regulations implementing the IFQ Cost Recovery Program which were inadvertently removed from regulations in a final rule published in the **Federal Register** on July 29, 2003. That final rule implemented Amendment 72 to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (Amendment 72) and Amendment 64 to the Fishery Management Plan for the Groundfish Fishery of the Gulf of Alaska (Amendment 64) (collectively, Amendments 72/64) and revised recordkeeping and reporting requirements for the IFQ and CDQ halibut programs. This action is necessary to correct the error and restore the regulations implementing the IFQ Cost Recovery Program.

DATES: Effective October 15, 2003.

FOR FURTHER INFORMATION CONTACT: Patsy A. Bearden, 907-586-7228 or patsy.bearden@noaa.gov.

SUPPLEMENTARY INFORMATION: The IFQ Cost Recovery Program is managed by the NMFS, Alaska Region, Restricted Access Management (RAM). Regulations implementing the IFQ Cost Recovery Program were published in the **Federal Register** on March 20, 2000 (65 FR 14919) and amended by publication in the **Federal Register** on January 28, 2002 (67 FR 4100). Under the regulations, an IFQ permit holder incurs a cost recovery fee liability for each pound of IFQ halibut or sablefish landed on his/her permit(s). The regulations included recordkeeping and reporting requirements at § 679.5(l)(7) necessary to implement the IFQ Cost Recovery Program. See 65 FR 14923 (March 20, 2000), amended at 67 FR 4130 (January 28, 2002). A final rule published in the **Federal Register** on
