SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration's International Buyer Program (IBP) encourages international buyers to attend selected domestic trade shows in high export potential industries and to facilitate contact between U.S. exhibitors and foreign visitors. The program has been successful, having substantially increased the number of foreign visitors attending these selected shows as compared to the attendance when not supported by the program. The number of shows selected to the program increased from 10 in FY 1986 to 28 in FY 2001 and will increase to 32 shows in FY 2004. Among the criteria used to select these shows are: export potential, international interest, scope of show, stature of show, exhibitor interest, overseas marketing, logistics, and cooperation of show organizers.

II. Method of Collection

Form ITA-4014P, Exhibitor Data, is used to determine which U.S. firms are interested in meeting with international business visitors and the overseas business interest of the exhibitors. The exhibitor data form is completed by U.S. exhibitors participating in an IBP domestic trade show and is used to list the firm and its products in and Export Interest Directory which is distributed to international buyer delegation members visiting the event and made available for use by Foreign Commercial Officers in recruiting delegations of international buyers to attend the show.

The Form ITA-4102P, Application, is used by potential show organizers to demonstrate (1) their experience, (2) ability to meet the special conditions of the IBP, and (3) provide information about the domestic trade show such as the number of U.S. exhibitors and the percentage of net exhibit space occupied by U.S. companies vis-a-vis non-U.S. exhibitors.

IV. Request for Comments

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or forms of information technology.

AGENCY: Import Administration, International Trade Administration, Department of Commerce

SUMMARY: The Department of Commerce is extending the time limit for the final results of the new shipper review of the

antidumping duty order on certain non-frozen apple juice concentrate from the People's Republic of China. The period of review for the new shipper review of Yantai Golden Tide Fruits & Vegetable Food, Co., Ltd. is June 1, 2002 through November 30, 2002.

EFFECTIVE DATE: October 22, 2003.

FOR FURTHER INFORMATION CONTACT:

Audrey R. Twyman or John Brinkmann, Office of AD/CVD Enforcement I, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-3534 or (202) 482-4126, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 23, 2003, the Department of Commerce ("the Department") issued the preliminary results of the new shipper review for certain non-frozen apple juice concentrate from the People's Republic of China ("PRC") for Yantai Golden Tide Fruits & Vegetable Food, Co., Ltd. ("Golden Tide"), covering June 1, 2002 through November 30, 2002. *See Non-Frozen Apple Juice Concentrate From the People's Republic of China: Preliminary Results of New Shipper Review*, 68 FR 44741 (July 30, 2003) ("Preliminary Results"). The final results are currently due no later than October 21, 2003.

Statutory Time Limits

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the final results of a new shipper review within 90 days after the date on which the new shipper review preliminary result is issued. However, if the case is extraordinarily complicated, section 751(a)(2)(B)(iv) of the Act allows the Department to extend this deadline for the final results of the new shipper review to a maximum of 150 days.

Postponement

The Department has determined that it is not practicable to issue the final results within the original time period. This case has become extraordinarily complicated in light of case events. In particular, verification in the PRC that was originally scheduled to occur earlier in the proceeding was delayed due to restrictions on travel to the PRC. The additional time is required in order to allow parties adequate time to comment on the findings of the verification and to comment on the Department's preliminary results. Also, additional time is necessary to analyze data used in the calculation of normal value. Therefore, in accordance with
