II. What Action is the Agency Taking?

This notice announces cancellation, as requested by Drexel Chemical

Company and Makhteshim Chemical Works, Limited of all of their diazinon outdoor non-agricultural manufacturing-use products registered under section 3 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and cancellation, as requested by Walla Walla Environmental, Incorporated, of its only diazinon outdoor non-agricultural end-use product. These registrations are listed in ascending sequence by registration number in Table 1 of this unit.

A. Background Information

Diazinon is an organophosphorous insecticide and is one of the most widely used insecticides in the United States. It is used for outdoor non-agricultural, as well as agricultural, pest control.

Under the December 5, 2000, Memorandum of Agreement between the technical registrants of diazinon and EPA, as well as a February 14, 2001 letter, from Drexel Chemical Company, both Makhteshim Chemical Works, Limited and Drexel Chemical Company requested, under FIFRA section 6(f), that EPA cancel, effective as of June 30, 2003, the registrations of all diazinon manufacturing-use products permitting formulation for outdoor non-agricultural use. These requests were contingent upon EPA's granting of certain existing stocks provisions, which are set forth in Unit V. of this notice. In a June 5, 2003 letter, Walla Walla Environmental, Incorporated requested, under FIFRA section 6(f), that EPA cancel the registration of its only diazinon outdoor non-agricultural end-use product. EPA announced its receipt of the above-mentioned cancellation requests in a **Federal Register** notice dated July 11, 2003 (FRL-7310-2).
