

(although, as described below, Creation Unit Aggregations may sometimes be redeemed for cash). The value of each Fund's redemption payments on a Creation Unit Aggregation basis will equal the NAV per the appropriate number of iShares of such Fund. Owners of iShares may sell their iShares in the secondary market, but must accumulate enough iShares to constitute a Creation Unit Aggregation in order to redeem through the Fund. Redemption orders must be placed by or through an Authorized Participant.

Creation Unit Aggregations of any Fund generally will be redeemable on any Business Day in exchange for Fund Securities and the Cash Redemption Payment (defined below) in effect on the date a request for redemption is made. The Advisor will publish daily through NSCC the list of securities that a creator of Creation Unit Aggregations must deliver to the Fund (the "Creation List") and which a redeemer will receive from the Fund (the "Redemption List"). The Creation List is identical to the list of the names and the required numbers of shares of each Deposit Security included in the current Portfolio Deposit.

In addition, just as the purchaser of Creation Unit Aggregations delivers the Balancing Amount to the Fund, the Trust will also deliver to the redeeming Beneficial Owner in cash the "Cash Redemption Payment." The Cash Redemption Payment on any given Business Day will be an amount calculated in the same manner as that for the Balancing Amount, although the actual amounts may differ in the Fund Securities received upon redemption are not identical to the Deposit Securities applicable for creations on the same day. To the extent that the Fund Securities have a value greater than the NAV of iShares being redeemed, a cash payment equal to the differential is required to be paid by the redeeming Beneficial Owner to the Fund. The Trust may also make redemptions in cash in lieu of transferring one or more Fund Securities to a redeemer if the Trust determines, in its discretion, that such method is warranted due to unusual circumstances. An unusual circumstance could arise, for example, when a redeeming entity is restrained by regulation or policy from transacting in certain Fund Securities, such as the presence of such Fund Securities, on a redeeming investment banking firm's restricted list.

#### E. Clearance and Settlement

The Deposit Securities and Fund Securities of each Fund will settle via free delivery through the Federal

Reserve System for U.S. government securities and the DTC for corporate securities and non-corporate (other than U.S. government securities). The iShares will settle through the DTC. The Custodian will monitor the movement of the Deposit Securities and will instruct the movement of the iShares only upon validation that the Deposit Securities have settled correctly or that required collateral is in place.

As with the settlement of domestic ETF transactions outside of the NSCC Continuous Net Settlement System (the "CNS System"), (i) iShares of the Funds and corporate and non-corporate securities (other than U.S. government securities) will clear and settle through DTC, and (ii) U.S. government securities and cash will clear and settle through the Federal Reserve system. More specifically, creation transactions will settle as follows. On settlement date (T + 3), an Authorized Participant will transfer Deposit Securities that are corporate and non-corporate bonds (other than U.S. government securities) through DTC to a DTC account maintained by the Funds' Custodian, and Deposit Securities that are U.S. government securities, together with any Balancing Amount, to the Custodian through the Federal Reserve system. Once the Custodian has verified the receipt of all the Deposit Securities (or in the case of failed delivery of one or more bonds, collateral in the amount of 105% or more of the missing Deposit Securities) and the receipt of any Balancing Amount, the Custodian will notify the Distributor and the Advisor. The Fund will issue Creation Unit Aggregations of iShares and the Custodian will deliver the iShares to the Authorized Participant through DTC. DTC will then credit the Authorized Participant's DTC account. The clearance and settlement of redemption transactions essentially reverses the process described above. After the Trust has received a redemption request in proper form and the Authorized Participant transfers Creation Unit Aggregations of iShares to the Funds' Custodian through DTC, the Trust will cause the Custodian to initiate procedures to transfer the requisite Fund Securities and any Cash Redemption Payment. On T + 3, assuming the Custodian has verified receipt of the Creation Unit Aggregations, the Custodian will transfer Fund Securities that are corporate and non-corporate bonds to the Authorized Participant through DTC and Fund Securities that are U.S. government securities, together with

any Cash Redemption Payment, through the Federal Reserve system.

iShares of the Funds will be debited or credited by the Custodian directly to the DTC accounts of the Authorized Participants. With respect to domestic equity-based ETFs using the CNS System, Creation Unit Aggregations of iShares are deposited or charged to the Authorized Participants' DTC accounts through the CNS System. Since creation/redemption transactions for iShares of the Funds will not clear and settle through the CNS System, the failed delivery of one or more Deposit Securities (on a create) or one or more Fund Securities (on a redemption) will not be facilitated by the CNS System. Therefore, Authorized Participants will be required to provide collateral to cover the failed delivery of Deposit Securities in connection with an "in-kind" creation of iShares. In case of a failed delivery of one or more Deposit Securities, the Funds will hold the collateral until the delivery of such Deposit Security. The Funds will be protected from failure to receive the Deposit Securities because the Custodian will not effect the Fund's side of the transaction (the issuance of iShares) until the Custodian has received confirmation of receipt of the Authorized Participant's incoming Deposit Securities (or collateral for failed Deposit Securities) and Balancing Amount. In the case of redemption transactions, the Funds will be protected from failure to receive Creation Unit Aggregations of iShares because the Custodian will not now effect the Fund's side of the transaction (the delivery of Fund Securities and the Cash Redemption Payment) until the Transfer Agent has received confirmation of receipt of the Authorized Participant's incoming Creation Unit Aggregations. In order to simplify the transfer agency process and align the settlement of iShares of the Funds with the settlement of the Deposit Securities and Fund Securities, Applicants plan to settle transactions in U.S. government securities, corporate bonds, non-corporate bonds (other than U.S. government securities) and iShares on the same T + 3 settlement cycle. The issuer does not believe that the clearing and settlement process will affect the arbitrage of iShares of the Funds.

#### F. Dividends and Distributions

Dividends from net investment income will be declared and paid to Beneficial Owners of record at least annually by each Fund. Certain of the Funds may pay dividends, if any, on a quarterly or more frequent basis. Distributions of realized securities
