DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered Wildlife and Plants; Candidate Conservation Agreement and Best Available Information for Slickspot Peppergrass (*Lepidium papilliferum*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability for review and public comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received the "Candidate Conservation Agreement for the Slickspot Peppergrass (*Lepidium papilliferum*)" (CCA), a document authored by representatives from the Idaho Governor's Office of Species Conservation, the Idaho Department of Agriculture, the Idaho Department of Fish and Game, the Idaho Department of Lands, the Idaho Army National Guard, the Bureau of Land Management (BLM), and several private property owners who hold grazing permits on BLM-managed and maintained lands, collectively referred to as Cooperating Parties. The CCA commits the Cooperating Parties to implementing conservation measures to prevent and minimize threats to *L. papilliferum*. We are seeking public comment on the CCA because the Service will be making a determination by January 15, 2004, on whether or not it will list *L. papilliferum* under the Endangered Species Act (Act) and must consider in its listing determinations all pertinent biology, threats, and conservation agreements for the species. We also seek public comment on a document compiled by the Service, "Best Available Information on *Lepidium papilliferum*" (Available Information), because we will be considering information in this document in making a final listing determination for the species.

DATES: We will accept comments and information pertaining to the CCA and the Available Information through November 14, 2003. Comments must be received by 5 p.m. on the closing date. Any comments that are received after the closing date may not be considered. No extensions to the public comment will be granted due to the short time
