

extensive variation among local workforce investment areas regarding policies and practices related to performance measurement and management. This data collection effort will enable DOL to identify the varying approaches and create a national picture of the ways in which this performance measurement system impacts policies and services at the local level.

Further, enormous amounts of resources have been expended in developing the infrastructure required to effectively measure and manage performance. Major investments have been made in MIS systems and in training employees on effective management strategies to meet negotiated levels. However, little is known about exactly what practices local areas are employing to meet measures, how the broad measures in place are impacting local decisions on managing performance, or whether local areas have implemented additional measures that better enable them to monitor and improve their performance. The data collected will enable ETA to fill this information gap and gain a better understanding of how the performance accountability system is actually operating, as well as any areas of concern that arise from the planned implementation of Common Measures in 2004.

II. Review Focus

The Department of Labor is particularly interested in comments that: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the utility, quality and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

III. Current Actions

The Department of Labor's Employment and Training Administration will be seeking Office of Management and Budget (OMB) approval to administer a questionnaire to LWIAs on policies and practices related to performance accountability, including their performance goals, and measures and tools they have established to assist in performance management. The data will be used in

two ways: to provide a national snapshot of the performance measurement system and to discern patterns of performance policies and practices among LWIAs.
