Regulatory Analyses and Notices

Paperwork Reduction Act

We propose no requirement to collect information. Therefore, the provisions of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507, and its implementing regulations, 5 CFR part 1320, do not apply.

Regulatory Flexibility Act

We certify that this proposed regulation, if adopted, will not have a significant economic impact on a substantial number of small entities. This proposed regulation imposes no new reporting, recordkeeping, or other administrative requirements. Any benefit derived from the use of a viticultural area name would be the result of a proprietor's efforts and consumer acceptance of wines from that area. Therefore, no regulatory flexibility analysis is required.

Executive Order 12866

This proposed rule is not a significant regulatory action, as defined by Executive Order 12866, 58 FR 51735. Therefore, it requires no regulatory assessment.

Approval and Promulgation of Implementation Plans for Kentucky; Permit Provisions for Jefferson County, KY

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the Jefferson County, Kentucky portion of the Kentucky State Implementation Plan (SIP) which amends four regulations of the Metro Louisville Air Pollution Control District (MLAPCD). The four MLAPCD regulations being revised are: Regulation 1.08, "Administrative Procedures," Regulation 2.05, "Prevention of Significant Deterioration of Air Quality," Regulation 2.09, "Causes for Permit Modification, Revocation, or Suspension," and Regulation 2.17, "Federally Enforceable District Origin Operating Permits." In the Final Rules Section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. The EPA will not institute a second
