

southern Idaho ground squirrels; reintroduction of southern Idaho ground squirrels into unoccupied suitable habitat; and authorization for Service and IDFG personnel to access enrolled lands for purposes of monitoring southern Idaho ground squirrel populations and habitat. Potential covered activities include: crop cultivation and harvesting, livestock grazing and production, farm equipment operation, and recreational activities (e.g., hunting, fishing, camping, dog training, and use of recreational vehicles on and off established roads).

The Service will conduct an environmental review of the proposed CCAA and prepare an environmental document. The review will analyze the CCAA, as well as a full range of reasonable alternatives, and the associated impacts of each. Should information become available that indicates significant environmental impacts from the proposed CCAA, an Environmental Impact Statement will be prepared. Comments and suggestions are invited from all interested parties to ensure the full range of issues related to this proposed action are identified. Comments or questions should be addressed to the Service at the address or telephone number provided above. See ADDRESSES and FOR FURTHER INFORMATION CONTACT.

The environmental review of this proposed project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), National Environmental Policy Act Regulations (40 CFR parts 1500–1508), other applicable Federal laws and regulations, and policies and procedures of the Service for compliance with those regulations.
