

state data collection requirements. Telephone surveys of the domestic industry may be conducted by NMFS to determine amounts of whiting that may be available for reallocation under 50 CFR 660.323(a)(4)(vi). No Federal reports are required of fishers or processors, so long as the data collection and reporting systems operated by state agencies continue to provide NMFS with statistical information adequate for management.

(b) Any person who is required to do so by the applicable state law must make and/or file, retain, or make available any and all reports of groundfish landings containing all data, and in the exact manner, required by the applicable state law.

(c) Any person landing groundfish must retain on board the vessel from which groundfish is landed, and provide to an authorized officer upon request, copies of any and all reports of groundfish landings containing all data, and in the exact manner, required by the applicable state law throughout the cumulative limit period during which a landing occurred and for 15 days thereafter.

(d) *Reporting requirements for vessels fishing in conservation areas—(1)*

Declaration reports for trawl vessels intending to fish in a conservation area.

The operator of any vessel registered to a limited entry permit with a trawl endorsement; any vessel using trawl gear, including exempted gear used to take pink shrimp, spot and ridgeback prawns, California halibut and sea cucumber; or any tribal vessel using trawl gear must provide NMFS with a declaration report, as specified at paragraph 660.303(d)(5), of this section to identify the intent to fish within the CCA, as defined at § 660.304, or any trawl RCA, as defined in the groundfish annual management measures that are published in the **Federal Register**.

(2) *Declaration reports for non-trawl vessels intending to fish in a conservation area.* The operator of any vessel registered to a limited entry permit with a longline or pot endorsement must provide NMFS OLE with a declaration report, as specified at paragraph (d)(5) of this section, to identify the intent to fish within the CCA, as defined at § 660.304, or any non-trawl RCA, as defined in the groundfish annual management measures that are published in the **Federal Register**.

(3) *When a declaration report for fishing in a conservation area is required,* as specified in paragraphs (d)(1) and (d)(2) of this section, it must be submitted before the vessel leaves port:

(i) On a trip in which the vessel will be used to fish in a conservation area for the first time during the calendar year;

(ii) On a trip in which the vessel will be used to fish in a conservation area with a gear type that is different from the gear declaration provided on a valid declaration report as defined at paragraph 660.303(d)(6) of this section; or

(iii) On a trip in which the vessel will be used to fish in a conservation area for the first time after a declaration report to cancel fishing in a conservation area was received by NMFS.

(4) *Declaration report to cancel fishing in a conservation area.* The operator of any vessel that provided NMFS with a declaration report for fishing in a conservation area, as required at paragraphs (d)(1) or (d)(2) of this section, must submit a declaration report to NMFS OLE to cancel the current declaration report before the vessel leaves port on a trip in which the vessel is used to fish with a gear that is not in the same gear category set out in paragraph § 660.303(d)(5)(i) declared by the vessel in the current declaration.

(5) *Declaration reports will include:* the vessel name and/or identification number, and gear declaration (as defined in § 660.303(d)(5)(i)). Upon receipt of a declaration report, NMFS will provide a confirmation code or receipt. Retention of the confirmation code or receipt to verify that the declaration requirement was met is the responsibility of the vessel owner or operator.

(i) One of the following gear types must be declared:

- (A) Limited entry fixed gear,
- (B) Limited entry midwater trawl,
- (C) Limited entry bottom trawl,
- (D) Trawl gear including exempted gear used to take pink shrimp, spot and ridgeback prawns, California halibut south of Pt. Arena, CA, and sea cucumber,
- (E) Tribal trawl,
- (F) Other gear including: gear used to take spot and ridgeback prawns, crab or lobster, Pacific halibut, salmon, California halibut, California sheephead, highly migratory species, species managed under the Coastal Pelagic Species Fishery Management Plan, and any species in the gillnet complex as managed by the State of California,
- (G) Non-trawl gear used to take groundfish.

(ii) Declaration reports must be submitted through the VMS or another method that is approved by NMFS OLE and announced in the **Federal Register**. Other methods may include email, facsimile, or telephone. NMFS OLE will provide, through appropriate media,

instructions to the public on submitting declaration reports. Instructions and other information needed to make declarations may be mailed to the limited entry permit owner's address of record. NMFS will bear no responsibility if a notification is sent to the address of record and is not received because the permit owner's actual address has changed without notification to NMFS, as required at § 660.335(a)(2). Owners of vessels that are not registered to limited entry permits and owners of vessels registered to limited entry permits that did not receive instructions by mail are responsible for contacting NMFS OLE during business hours at least 3 days before the declaration is required to obtain information needed to make declaration reports. NMFS OLE must be contacted during business hours (Monday through Friday between 0800 and 1700 Pacific Time).

(6) *A declaration report will be valid until a declaration report to revise the existing gear declaration or a declaration report to cancel fishing in a conservation area is received by NMFS OLE.* During the period that a vessel has a valid declaration report on file with NMFS, it cannot fish with a gear other than a gear type that is within the gear category (50 CFR 660.303(d)(5)) declared by the vessel. After a declaration report to cancel fishing in the RCA is received, that vessel must not fish in a conservation area until another declaration report for fishing by that vessel in a conservation area is received by NMFS.

■ 4. Section 660.304 is revised to read as follows:

§ 660.304 Management areas, including conservation areas, and commonly used geographic coordinates.

(a) *Management areas.* (1) *Vancouver.*

(i) The northeastern boundary is that part of a line connecting the light on Tatoosh Island, WA, with the light on Bonilla Point on Vancouver Island, British Columbia (at 48°35'75" N. lat., 124°43'00" W. long.) south of the International Boundary between the U.S. and Canada (at 48°29'37.19" N. lat., 124°43'33.19" W. long.), and north of the point where that line intersects with the boundary of the U.S. territorial sea.

(ii) The northern and northwestern boundary is a line connecting the following coordinates in the order listed, which is the provisional international boundary of the EEZ as shown on NOAA/NOS Charts #18480 and #18007:
