

out whether or not a test standard is currently ANSI-approved.)

Conditions

Intertek Testing Services NA, Inc., must also abide by the following conditions of the recognition, in addition to those already required by 29 CFR 1910.7:

ITSNA may perform safety testing for hazardous location products only at the specific ITSNA sites that OSHA has recognized, and that have been pre-qualified for such testing by the ITSNA Chief Engineer. In addition, all safety test reports for hazardous location products must undergo a documented review and approval at the Cortland testing facility by a test engineer qualified in hazardous location safety testing, prior to ITSNA's initial or continued authorization of the certifications covered by these reports;

ITSNA may not test and certify any products for a client that is a manufacturer or vendor that is either owned in excess of 2% by ITSNA or affiliated organizationally with ITSNA;

ITSNA must have specific written testing procedures in place before testing products covered by any test standard for which it is recognized and must use these procedures in testing and certifying those products;

OSHA must be allowed access to ITSNA's facilities and records for purposes of ascertaining continuing compliance with the terms of its recognition and to investigate as OSHA deems necessary;

If ITSNA has reason to doubt the efficacy of any test standard it is using under this program, it must promptly inform the organization that developed the test standard of this fact and provide that organization with appropriate relevant information upon which its concerns are based;

ITSNA must not engage in or permit others to engage in any misrepresentation of the scope or conditions of its recognition. As part of this condition, ITSNA agrees that it will allow no representation that it is either a recognized or an accredited Nationally Recognized Testing Laboratory (NRTL) without clearly indicating the specific equipment or material to which this recognition is tied, or that its recognition is limited to certain products;

ITSNA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major changes in its operations as an NRTL, including details;

ITSNA will meet all the terms of its recognition and will comply with all

OSHA policies pertaining to this recognition; and

ITSNA will continue to meet the requirements for recognition in all areas where it has been recognized.

Signed at Washington, DC this 24th day of October, 2003.

John L. Henshaw,

Assistant Secretary.
