

necessary to facilitate maintenance work on the bridge that is essential to the continued safe operation of the drawbridge.

DATES: This temporary deviation is effective from 8 a.m., November 3, 2003, until 8 a.m., December 11, 2003.

ADDRESSES: Materials referred to in this notice are available for inspection or copying at the office of the Eighth Coast Guard District, Bridge Administration Branch, Commander (obr), Eighth Coast Guard District, 1222 Spruce Street, St. Louis, MO 63103-2832, between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays. The Bridge Administration Branch maintains the public docket for this temporary deviation.

FOR FURTHER INFORMATION CONTACT:

Roger K. Wiebusch, Bridge Administrator, Commander (obr), Eighth Coast Guard District, 1222 Spruce Street, St. Louis, MO 63103-2832, (314) 539-3900, extension 2378.

SUPPLEMENTARY INFORMATION: The Union Pacific Railroad Company requested a temporary deviation on September 25, 2003 for the operation of the drawbridge to allow the bridge owner time for preventative maintenance. Presently, the draw opens on signal for passage of river traffic; except that from December 15 through March 31, the draw opens on signal if at least 24 hours notice is given. This deviation allows the bridge to remain closed to navigation for six intervals from 8 a.m. until 4 p.m. daily on November 3-7, 2003; from 8 a.m. until 4 p.m. daily on November 10-14, 2003; from 8 a.m. until 4 p.m. daily on November 17-21, 2003; from 8 a.m. until 4 p.m. daily on November 24-28, 2003; from 8 a.m., December 1 until 8 a.m. December 4, 2003; and from 8 a.m., December 8 until 8 a.m. December 11, 2003. Vessels not exceeding the vertical clearance of the drawbridge may pass under the drawbridge during repairs. There are no alternate routes for vessels transiting through mile 17.3, St. Croix River. The drawbridge will open for emergencies during the repair periods with a two-hour advance notice.

The Hudson Railroad Drawbridge provides a vertical clearance of 17.1 feet above normal pool in the closed to navigation position. Navigation on the waterway consists primarily of recreational watercraft. In order to repair structural steel components and replace the Conley Joints the bridge must be kept inoperative and in the closed to navigation position. This deviation has been coordinated with waterway users. No objections were received.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: October 29, 2003.

Roger K. Wiebusch,

Bridge Administrator.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 60

[SIP No. MT-001-0047a, WY-001-0010a, WY-001-0011a, WY-001-0012a; FRL-7573-2]

Approval and Promulgation of Air Quality Implementation Plans; States of Montana and Wyoming; Revisions to the Administrative Rules of Montana; New Source Performance Standards for Wyoming and Montana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule and NSPS delegation.

SUMMARY: EPA is taking direct final action approving State Implementation Plan (SIP) revisions submitted by the Governor of Montana on October 28, 2002. The October 28, 2002 submittal revises the Administrative Rules of Montana (ARM) by updating the Incorporation by Reference rules, deleting the definition for volatile organic compounds (VOCs), and making other minor corrections to the rules. The October 28, 2002 submittal also makes revisions to the Yellowstone County Air Pollution Control Program (YCAPCP). EPA is only approving the revisions to the section of the YCAPCP that have been approved into the SIP. The intended effect of this action is to make these revisions federally enforceable. We are also announcing that on June 24, 2003, we updated the delegation of authority for the implementation and enforcement of the New Source Performance Standards (NSPS) to the State of Montana.

On August 9, 2000, August 2, 2001 and June 30, 2003, the State of Wyoming submitted revisions to the NSPS in the Wyoming Air Quality Standards and Regulations and requested delegation of the NSPS. We are announcing that on August 13, 2003, we delegated the authority for the implementation and enforcement of the NSPS to the State of

Wyoming. In addition, we are updating the "Delegation Status of New Source Performance Standards [(NSPS) for Region VIII]" table to add entries for newly delegated NSPS subparts for the State of Montana and the State of Wyoming. These actions are being taken under sections 110 and 111 of the Clean Air Act (CAA).

DATES: This rule is effective on January 5, 2004 without further notice, unless EPA receives adverse comment by December 5, 2003. If adverse comment is received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Written comments may be submitted by mail to Richard R. Long, Director, Air and Radiation Program, Mailcode 8P-AR, Environmental Protection Agency (EPA), Region 8, 999 18th Street, Suite 300, Denver, Colorado 80202-2466. Comments may also be submitted electronically, or through hand delivery/courier. Please follow the detailed instructions described in sections (I)(B)(1)(i) through (iii) of the **SUPPLEMENTARY INFORMATION** section.
